Here is the proposed camera at the back of the Jr. High Mr. Bauer asked for. I asked Alex for the high school back camera proposal but haven't received it yet. But it wouldn't surprise me if it was in this ballpark as well. This should be included in the tech meeting info.

Below is an estimated cost. Let me know if you would like us to make up a formal proposal.

<u>Qty</u>	<u>Description</u>
1	* Use Existing Spare Milestone Device License
1	Hanwha PNM-9031RV - 15MPx Multi-sensor 180° Panoramic Camera
1	Hanwha SBP-276HMW - Cap Adapter for PNM-9031RV, White
1	Hanwha SBP-300WMW1 - Wall Mount Accessory, White
1	Hanwha SBP-300BW - Wall Mount Base, White
1	Netgear GS510TLP - 8-Port Gigabit PoE+ Ethernet Switch, 2 Dedicated SFP Ports
As Req.	Category 5e F/UTP Plenum 24 AWG 4 Pair Shielded Plenum Cable
1	Misc. Installation Materials
1	Installation Labor - Setup Camera at Shop
1	Installation Labor - Wire Run
1	Installation Labor – Camera and Mount
1	Installation Labor - Head-End and Add to Milestone Systems

Total Estimated Cost: \$ 3,460.00

Thanks!

That's the ballpark, yes. Either there or on the west corner depending on what Mr. Bauer said.

If you could give us an estimate on price I will take it to him.

Sara,

Please see the attached drawing and let me know if that is what you have is mind.

You have extra Milestone licenses available, so we will not need any additional for this camera. However, we will need to replace the switch for increased PoE capacity.

Also, there is an 8MP and 15MP version of the multi-sensor panoramic. I was thinking of quoting the 15MP for the large area, and it also has IR in case the light is very low. The price difference is around \$550. Let me know what you think.

Thanks,

Hi,

Needing a proposal here for a camera addition to the back of our Jr. High.

We're officially going to be moving forward with construction of a new school building back there and Mr. Bauer felt we should consider a new camera to overlook the construction site.

I was guessing a 180 degree multi-sensor high resolution camera so that we can digital zoom in after the fact if needed? We'd need it installed at the back of the Jr. High and wired to the Jr. High cafeteria area where that fiber extension was added.

Of course open to suggestions, what you think would be the most effective thing.

You can call me if you like to follow up and discuss - my number is 217-565-3048.
