

# 19-20 Course Changes

## For Information Only

Each year, the courses at the secondary level are reviewed by counselors, content specialists and the Director of Curriculum and Instruction to make recommendations for changes to the course catalog and supplements. For the 2019-20 school year, the changes include those listed below

**Blue - Add new course**

**Red - Delete**

**Green - Name Change and Course Description Change**

| Course Name                          | Number           | Reason   | New Name                       | Department                            | Secondary Level |
|--------------------------------------|------------------|--|--------------------------------|---------------------------------------|-----------------|
| Biology                              | 221101<br>221102 | Course Description Change  | N/A                            | Science                               | High School     |
| Honors Biology                       | 221901<br>221902 | Course Description Change  | N/A                            | Science                               | High School     |
| Infant and Toddler Development       | 201581<br>201582 | Course Change (going from 2 hour block to 1 hour, this will be a semester only course) | Infant and Toddler Development |                                       | High School     |
| Automotive: Diagnostics & Electrical | 172021<br>172022 | Delete Course  | N/A                            | Engineering and Industrial Technology | High School     |
| Automotive: Engines & Performance    | 172221<br>172222 | Delete Course  | N/A                            | Engineering and Industrial Technology | High School     |
| Advanced Automotive                  | TBD              | Add new course   | Advanced Automotive            | Engineering                           | High School     |
