

UNITED INDEPENDENT SCHOOL DISTRICT AGENDA ACTION ITEM

Topic: Approval of CSP (Competitive Sealed Proposals) as the Method of Procurement for District Wide Water Bottle Filling Stations

Submitted by: Cordelia Jackson / Alfonso Peña **Of:** Director of Purchasing/ Director of Maintenance & Operations

Approved for transmittal to school board: June 14, 2022

Recommendations:

Administration is recommending approval of Competitive Sealed Proposals (CSP) as the Method of Procurement for District Wide Water Bottle Filling Stations. This will be an ESSER III project.

Rationale:

As per Government Code 2269.056, the Board of Trustees of a public school district that is considering a construction contract using a method specified by Government Code 2269 must before advertising determine which method provides the best value. Request for Competitive Sealed Proposals (CSP) is the procurement method best suited for projects that are not schedule-sensitive nor subject to potential change. Some advantages of this method are the selection flexibility and the open aggressive bidding it provides. In reviewing the scope of the recommended project, administration has determined that CSP is the best value method for this project.
