Background:

The purpose of Schedule 5 of the Curriculum as a Service Agreement is to continue the partnership between TechSmart and the Marana Unified School District. This partnership allows the Marana Unified School District to work with TechSmart to build pathways resulting in our students developing the knowledge and skills necessary to earn computer science industry certifications. Students who complete these pathways will graduate with strong procedural thinking skills and have direct access to employment opportunities in every industry.

This program was initially implemented at Dove Mountain CSTEM K-8 School. Last year, it was also implemented at Mountain View High School and Marana High School with the goal that this computer science program reaches every student and school with a full pathway of courses. For the third year of implementation. The cost will be \$19,500.

This agreement has been approved by District's legal counsel.

Recommended Motion:

I move that the Governing Board approve the Schedule 5 Curriculum as a Service Agreement between TechSmart, Inc. and Marana Unified School District.

Approved for transmittal to the Governing Board:

Dr. Daniel Streeter, Superintendent
