

FIS School Board Report November 13, 2024

Student of the Month lunch

We held our first Student of the Month lunch at FIS. Students were honored in the area of Science this past month. Students were able to have their parents or guardians join them and celebrate their accomplishments with a pizza lunch. This is a great way to reinforce our students' positive behavior and recognize all the great things that they are doing at FIS.

Parent/Teacher Conferences

Parent/Teacher conferences were on November 6th and 7th at FIS. This was a great time for staff to communicate with families about our students and how to partner together and provide support. Conferences were well attended and we had a busy building for those two days which was great to see.

2023 LEEA and ESS Award winners

Congratulations to Amanda Wojciehowski and Amber Nelson who were the FIS LEEA and ESS award winners. Amanda teaches Physical Education and has worked with our PBIS Committee for many years. Amber works as an Educational Assistant and has provided support to our students. Congratulations to both Amanda and Amber, they are both well deserving of this recognition.

Activity Night

We held our first Activity night for students in grades 6-8. Our student council members did a great job of planning fun activities for the students. Thank you to our staff members who chaperoned and our students council advisors Jason Swanson and Kristin Herbert for the leadership that they provided.
