

March 23, 2023
Board report

Child Care update: The month of February, to state the obvious February is the month of Valentines. Our littles do love their arts and craft time! February is also I love to read month. Each classroom has a reading station where the children can go and enjoy a book and/or relax.

I am currently working on the CACFP (CHILD AND ADULT CARE FOOD PROGRAM) license. On the following pages will be general information and guidelines for the CACFP. I also added an Agreement to furnish food service. This will give you the numbers used in getting the reimbursement.

We currently have 12 children enrolled. Of these 12 -9 are considered free, 1 is reduced and 2 are paid.

March is a regrouping month. We had one girl resign and move to Utah. This leaves us two people short. This is of course hard on our teachers and when one of them have to take leave it may leave us no choice but to close down that room. We try our best to follow the state guide lines. There should be 2 people in each classroom. This is for safety. If a teacher has to assist one student in the bathroom there should be another set of eyes on the students. I have to spend many hours in the classroom. This leaves me very little time in my office.

In the past couple weeks, I had two teen moms' come in get an application. The idea of Browning Public Schools will take part in making the lives of these young parents and their children a little richer. They can receive an education and their children will be in a safe and happy environment.
