

**To:** Harlem School District Board of Education

Dr. Terrell Yarbrough, Superintendent

Josh Aurand, Chief School Business Official

From: Jacob Hubert, Director of Secondary Education

**RE:** Purchase of Panorama Ed

**Date:** January 28, 2022

Harlem Middle School was identified in 2017 as a low-performing school, and through the Illinois Empower process, the school identified needing to better reach their underperforming students and the inequities those students also face outside of the school day. Research performed by Joseph Zins and Maurice Elias that was published in 2006 shows that 8 of 11 of the most influential factors that impact effective schools are categories related to social and emotional learning (2006).

At the middle school, the MTSS team consists of administration and staff who meet two to three times a month to discuss students in need of assistance based on their academic performance, attendance, and behaviors. The team pulls data about the identified students from Skyward, iReady, Harlem Connect, and shared information from various staff. The Panorama Education program is compliant with Illinois' SOPPA requirements. The team goes through various resources, assigns supports, and sets an established date to revisit how the supports are working for the students. Beyond the MTSS team, other various staff members work to provide supports to address general student behaviors, find or create resources to address general behaviors of the student body, and use data from a number of resources, including a needs assessment developed by the counseling office, in order to create groups to meet the needs of groups of students within the school.

Harlem middle school would like to use funds through the Title 1 School Improvement Grant to purchase a program called Panorama Education. Panorama Education is an all-in-one platform that communicates with Skyward, iReady, and can have data uploaded into the system to centrally locate all student data to facilitate discussions about MTSS. Panorama Education also provides universal screeners three times a year to provide information about the student body's general population, has partnerships with research-based social-emotional learning programs such as Second Step, and MTSS interventions located within the program to implement and track progress.

Panorama Ed is currently used by 97 school districts in Illinois. Round Lake implemented Panorama Education in 2019 and has experienced an increase in teacher-student relationships and student belonging even through remote learning and the pandemic. Peoria school district has been using Panorama Education and has experienced the positive benefits of students building their self-profile needs and seeking out resources in the program. This resource allows students to take ownership in their own growth. Other major metropolitan districts in New Jersey and Texas have been able to tie an increase in graduation rates, a decrease in negative behaviors, and an increase in student attendance to the use of Panorama Education.

The plan is to use the Panorama Education program for three years. We will evaluate the Panorama Education program at the end of each year to determine if it's meeting our building needs, and at the end of three years, we will make the decision to enter a multi-year contract and investigate the possibility of expanding the use of the program to other buildings. I am requesting the board approve the contract with Panorama Education for one year. The breakdown of services with allocation of funding is included below:

Year	Services Provided	Funding
Year 1	Access to Panorama Student Success Platform and Support (as defined in the Terms and Conditions):  • Dashboards and reporting for teachers, student support staff, school administrators, and district administrators  • Panorama's social-emotional learning survey or screener for students  • Includes survey administration, analysis, and reporting  • Ongoing integration of Skyward & standard filters into Student Success platform. Includes behavior, attendance, coursework, rosters, and demographics  • Ongoing integration of i-Ready IAR and two additional assessments, into Student Success platform.	\$10,000
	<ul> <li>Intervention tracking</li> <li>Technical Support Includes dedicated Client</li> <li>Success Manager who will work with the client's main point of contact to execute a successful implementation.</li> <li>Manage setup and configurations</li> <li>Platform maintenance</li> <li>End user email support</li> <li>Online resources</li> <li>Data integration</li> <li>Foundations Package (Virtual) Includes up to two virtual workshops from Panorama's core offerings menu. Each workshop includes a consultative planning session with a professional learning specialist and up to 2 hours of virtual facilitation</li> </ul>	\$5,000 \$1,500
	for groups <50 (Larger sessions can be supported as interactive webinars, and additional facilitators can be added for breakout rooms or chat moderation at an additional cost).	Total: \$16,500

		Paid through Title 1 SIG
