Jackie Hanson, Superintendent

Craig City School District

Re: Craig Elementary and Middle Schools Rehabilitation, Supplemental, GR-23-003/27-003

Attached is a draft project agreement amendment for the Craig Elementary and Middle Schools Rehabilitation project approved for grant funding in the FY27 capital budget. Please review the draft project agreement amendment to ensure district approval of the proposed modifications.

Note that both the project budget and the project scope of work have been revised. The project budget has been revised to include an additional **\$462,863** in State Major Maintenance Grant Funds and an additional recipient's participating share of **\$115,716**. The scope of work has been expanded to include:

- Replacing failed boilers with high-efficiency propane-fired boilers, including associated mechanical equipment, controls, piping modifications, and appurtenances at the Craig Elementary School; and
- Repairing and reinforcing the valley roof structural system, including replacement of deteriorated structural members, associated building system modifications, and related engineering necessary to restore the roof to its intended design capacity at the Craig Middle School.

After your review, respond with either your concurrence or any comments or requested changes. Once the district approves the draft, the department will issue the final project agreement amendment for signature via DocuSign.

At your convenience, please provide the following:

- The name and email address of the individual who should receive the final document for signature.
- The names and email addresses of any individuals who should receive a copy once the document has been fully executed.

Thank you for your attention to this matter.

Best Regards,

Sammy Legg
