Sunray Independent School District Sunray Elementary School 2016-2017 Campus Improvement Plan

Accountability Rating: Met Standard

Mission Statement

The mission of Sunray Elementary School is to shape the future, one child at a time, through a community partnership dedicated to excellence in teaching and learning. In order to ensure that all students succeed, we will:

Encourage parental and community academic involvement.

- Show enthusiasm in our teaching, creating an inviting learning environment.
- Be responsible for all student learning and mastering the state developed curriculum or TEKS.
 - Encourage all students to participate in non-academic activities.
 - Model and teach manners, respect, citizenship, and teamwork.
 - Expect students to always give their best.

In order to measure that all students are successful in learning, we will:

- Provide continual assessments that evaluate progress towards mastering the TEKS and use those results to direct our course of action to produce mastery for all students.
- Analyze all available data to determine strengths and weaknesses of individual and group needs to promote student learning.

When a student isn't successful in learning, we will:

- Collaboratively re-evaluate lessons to determine ways to improve student learning and then re-teach the lessons using different methods, and providing additional assistance.
- Collectively establish plans and strategies that will provide the student with the necessary additional time and support to ensure learning.
 - Consistently involve parents in educational decisions to promote student success.

When a student is successful with the required curriculum, we will:

• Provide opportunities that will allow the student to explore and enhance learning through various presentation methods such as technology, art presentations and other teacher developed methods. This will encourage creativity and a deeper level of learning from our students.

Vision

The vision of Sunray Elementary is to become a true professional learning community, a community of learners that is focused on the learning process.

Value Statement

Comprehensive Needs Assessment

Demographics

Demographics Summary

Sunray ISD is a small, rural district of 520 students. Currently, 54.2% of students were Hispanic and 43.3% were White, with the remaining 2.5% being other ethnicities. 48.8% of students were economically disadvantaged.

Demographics Strengths

The diversity of students at Sunray ISD provides the opportunity for cultural enrichment in the classroom setting.

Student Achievement

Student Achievement Summary

STAAR 2016	3rd C	Grade		4th Grade	
	Reading	Math	Reading	Math	Writing
All Students	61%	69%	68%	85%	68%
Eco Dis	61%	66%	61%	80%	72%
ESL	68%	68%	64%	73%	64%

Student Achievement Strengths

In 2015-16, Fourth Grade Math was our strength with a Level II Satisfactory of 85%, and Level III Advanced of 22%.

Student Achievement Needs

The state testing data from 2015-16 demonstrated a need for improvement in the areas of 3rd grade both areas and 4th Grade Reading and Writing. We also need to improve our Hispanic, ECD and Special Education students' performance in all grade levels.

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Summary

Sunray Elementary staff consists of 27 people. Of these 27, 20 are teachers, 2 support staff, 3 Para-professionals, 1 campus counselor and 1 campus administrator. The average years of experience for the staff are 9.7 years with 7.7 years of experience within the district. The gender make-up of the professional staff is 26 females and 1 males. There are 3 minorities on staff at Sunray Elementary.

Staff Quality, Recruitment, and Retention Strengths

One of the strengths of Sunray Elementary staff is the experience found on the campus. The teachers have the experience to implement the TEKS Resource System, curriculum and have a variety of teaching strategies that work for them. The teachers, new(er) to the profession, have experienced teachers to mentor and assist them. The more experienced teachers are open to new ideas and able to adjust their teaching. Collaboration between faculty members is an asset for Sunray Elementary. Faculty members work together, listen to each other, and learn together to strengthen the overall program at Sunray Elementary. This collaboration also assists with vertical and horizontal alignment of curriculum which strengthens the entire learning community at Sunray ISD.

Staff Quality, Recruitment, and Retention Needs

A need for Sunray Elementary staff is more Spanish proficient staff members. 59.8% of the student body is Hispanic, having more Spanish proficient staff members would assist with communication between home and school. Also, with more staff members Spanish proficient, the Hispanic parents and community members would feel more welcome and volunteer to assist Sunray Elementary.

Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Summary

TEKS Resource System is Sunray ISD's curriculum management system. Teachers are required to follow the Instructional Focus Documents and develop Unit Assessments in TEKS Resource system or DMAC for their classrooms. This will help teachers and administrators predict student success on the state assessments in the spring. The data will be used to target students for our Response to Intervention Programs at all campuses. Teachers will also implement Sean Cain's Fundamental Five: Framing the Lesson, Working in the Power Zone, Purposeful Small Group Talk, Recognizing/Reinforcing Effort, and Writing Critically across the curriculum.

Curriculum, Instruction, and Assessment Strengths

Sunray ISD is making strides in full TEKS Resource System implementation in the core classrooms. Teachers will use the IFD and assessments from TEKS Resource System or DMAC to measure and improve their daily instruction.

Curriculum, Instruction, and Assessment Needs

Rigor in the classroom is a need for Sunray ISD. We will be implementing the Fundamental Five and TEKS Resource System's assessments in the classroom to increase rigor.

Family and Community Involvement

Family and Community Involvement Summary

Sunray Elementary provides opportunities for parents to be involved in the schools. We have a PTO at the elementary to encourage parents to be actively involved in the school. Sunray Elementary also provides opportunities for parents to volunteer and assist in the daily school routines. We have two days set aside for parent-teacher conferences where the parents are strongly encouraged to meet with their child's teacher(s). Each special program (Dyslexia, GT, Title I, ESL, etc.) have parental information nights at least once a year. Parents are encouraged to attend all ARD meetings. Parent feedback supports the continuation of the parent conference days in the Fall and in the Spring. We have also had positive feedback on the amount of documents we send home in both English and Spanish. We will find ways to increase volunteerism and mentoring at the campuses. We have parent and community representatives on our Campuses and District Educational Improvement Councils. We also want to work to increase the use of technology as a communication tool. Parents are encouraged to join the e-mail lists at each of the campuses as well as to view the district website at <u>www.sunrayisd.net</u>.

Family and Community Involvement Strengths

Sunray Elementary has an active PTO at the elementary school which involves parents, teachers, community members and administration. The schools send home information on how to become involved with the schools. Parents are also contacted by telephone, e-mail, and on the district website about opportunities to be involved and how to volunteer in the schools.

Family and Community Involvement Needs

Sunray Elemetary has an overall need to increase parent involvement. We need to actively recruit Hispanic and ELL parents. Hispanic parents and ELL parents need to feel welcomed in the schools and to be involved as much as possible. Another need for parent involvement is to increase communication between the school and parents. This includes improving communication between parents and the schools, using more parent & community e-mails and keeping the website current. Written communication to parents needs to be in both English and Spanish. RosettaStone classes at night to increase adult literacy in English or Spanish.

Technology

Technology Summary

Sunray ISD tries to stay current with technology and technological trends. We have a current website, all administrators use Twitter, automatic calling system and SMARTboard technology incorporated daily.

Technology Strengths

Sunray Elementary has provided a SMARTboard in almost every classroom. Before installation of the technology in the classrooms, professional development and training were required of teachers. Another strength is the new automatic calling system to notify teachers, parents and community members of information in a timely fashion.

Technology Needs

Sunray Elementary will assist in updating the district technology plan, finish installing SMARTboard in remainder of teachers' classrooms, provide additional beginner and advance SMARTboard trainings, and develop a campus based replacement plan for computers and other technologies such as calculators, projectors, SMARTboards, etc.

Community Involvement Summary

The sense of community involvement is very strong in Sunray. The community supports the school. Community members show their support by serving on the school board, various parent advisory committees, the District Educational Improvement Council, the various Campus Educational Improvement Councils, fundraisers, and athletic events. Several community members are showing their support of Sunray schools by mentoring struggling elementary school readers this year.

Community Involvement Strengths

One of the strengths for Sunray Elementary is community involvement. The community of Sunray supports the school district academically, monetarily, and athletically. The community volunteers as mentors in our elementary school working with our students who have math difficulties. The community also volunteers in other areas at our schools. The community supports the school monetarily by supporting the various fund raisers, passing school bonds, and attending the different athletic events. The community supports the athletic teams with their attendance at the different events as well as displaying Bobcat pride throughout the town. Another strength is the various programs that Sunray ISD invites the community to participate in. The Veterans' Day program is one example of the community involvement programs that Sunray ISD offers.

Community Involvement Needs

One of the biggest needs is improving communication between the schools and the community members. The school district will add community members to the e-mail lists and automatic phone calling system when information is provided.

Programs

Programs Summary

Sunray Elementary serves approximately 225 students in grades Pre-Kindergarten through 4 grades. The ethnic breakdown for Sunray Elementary is 59.8% are Hispanic and 39.2% are White. Sunray Elementary has 59.3% economically disadvantaged students. Students identified as LEP – 33.5%, At-risk - 61.7%, and Mobility - 15.8%. The Bilingual/ESL, GT, Dyslexia, Title I, 504, Response-to-Intervention (RTI) and Special Education programs assist students in their academic, social, and physical success. The Reading Recovery for Sunray Elementary provides teacher leadership in reading, assists with TPRI progress monitoring and proper interventions with reading students on Tier 2 and Tier 3. The Bilingual/ESL program assists Sunray Elementary LEP students to become more proficient in speaking, reading, and writing the English language. The Gifted and Talented (Advanced Academics) Program meets the Texas standards. The Dyslexia program serves students identified as Dyslexic with the Herman Method and Lexile Computer Programs. Sunray Elementary is a Title I school. Sunray Elementary 504 program makes accommodations for students identified under IDEA. RTI and extended day (tutorials) opportunities meet the needs of students unsuccessful in their core subject. The North West Texas Shared Services Arrangement (NTWSSA) serves the special educational students at Sunray Elementary.

Programs Strengths

The staff survey data shows that the Bilingual/ESL program and personnel assists the LEP students in acquiring English, advancing in their English proficiency according to TELPAS and becoming more successful in their remaining academic subjects. This is a real strength for Sunray Elementary. Another strenght for Sunray Elementary is the Reading Coach. She is able to assist the teachers not only with their reading instuction but also with the reading interventions and progress monitoring. Another strenght for Sunray Elementary is the Dyslexia program. The RTI and Extended Day program assists students with their academic weaknesses by giving students more time in a small group setting for intensive remediation of their academic weaknesses. The Special Education program meets the needs of students identified as special education.

Programs Needs

The elementary staff survey data shows that scheduling for special programs is the main concern.

Operations

Operations Summary

Accountability Sunray Elementary is a Met Standard Campus.

Operations Strengths

Attendance: Attendance rates continue to be recognized as acknowledge by the state of Texas. All areas with significant numbers of students to categorize continue to be above 96%. We will continue to recognize students for attendance. We will continue parent contacts through phone calls and letters for excessive absences and tardies. We will continue a modified exemption policy at the high school for semester tests based on attendance and grades for all non-core classes. Student Campus Assistance Teams will review attendance as needed. Saturday School will be used to help with attendance and grades. Crisis Management: The Crisis Management Plan is complete and the teaching staff has been trained in its use. Drills will be conducted at each campus in order to stay prepared in the event of a crisis. The required Crisis Plan Audit was completed in Fall, 2007-08 through our Risk Management Group. The Crisis Plan will be modified base on the findings and recommendations of the school safety audit. Discipline Management: The use of the progressive discipline guide, the training of and use of mentors for new staff members, the review of discipline guidelines for returning staff members and the training of substitute teachers in discipline techniques continue to keep major discipline issues to a manageable level. Offenses are minor in nature - tardies, violation of school rules, cheating, horseplay, etc. Campus principals and Campus Educational Improvement Councils continue timely monitoring of discipline at each campus and timely implementation of strategies that address campus discipline needs. The report to the board and analysis of the data helps the campuses and the district to ensure that discipline is firm, fair and consistent. Each campus will continue to analyze the discipline data to see where most discipline problems are occurring and will develop strategies to improve these areas if current discipline methods are not working.

Operations Needs

Attendance: Waiver for flu-like illness attendance levels will be applied for if needed. **Crisis Management:** Crisis Drills need to be continued and practiced at each campus. Entire Crisis Management document for district and campuses needs to be updated through Rem4ed and then communicated to all staff members. Additional modifications are needed based on results and suggestions from the school safety audit performed last year. **Discipline:** Although discipline infractions remain at the minor level. A plan needs to be developed to strengthen Saturday School and ISS to make them a bigger deterrent to tardiness and absenteeism.

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Current and/or prior year(s) campus and/or district improvement plans
- Campus and/or district planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Federal Report Card Data
- PBMAS data

Student Data: Assessments

- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- STAAR Released Test Questions
- Texas English Language Proficiency Assessment System (TELPAS) results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student Success Initiative (SSI) data for Grades 5 and 8
- Local benchmark or common assessments data
- Student failure and/or retention rates

Student Data: Student Groups

- Number of students assigned to each special program, including analysis of academic achievement, race, ethnicity, gender, etc
- Special education population, including performance, discipline, attendance, and mobility
- Migrant population, including performance, discipline, attendance and mobility
- At-Risk population, including performance, discipline, attendance and mobility
- ELL or LEP data, including academic achievement, support and accommodation needs, race, ethnicity, gender, etc
- Homeless data
- Gifted and talented data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records

- Violence and/or violence prevention records
- Student surveys and/or other feedback

Employee Data

- Professional Learning Communities (PLC) data
- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

• Parent surveys and/or other feedback

Support Systems and Other Data

- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: By 2019-2020, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts, mathematics, science and social studies.

Performance Objective 1: All 4th grade students will achieve at least 85% mastery level within three years on the STAAR Writing test.

Summative Evaluation: The district average and subgroups of students will increase in writing in the aggregate who are at or above the proficient level in writing on the state's assessment. Student subgroups will increase as follows: H-%, W-3%, EcoD-1% and SpEd-%. (Note: These groups are those for which the ESEA requires state reporting and include students disaggregated by race, ethnicity, gender disability status, migrant status, English proficiency, and status as economically disadvantaged.

Stratogy Description	Staff Responsible	Evidence that Demonstrates Success	Formative Review				
Strategy Description	for Monitoring	Evidence that Demonstrates Success	Nov	Jan	Mar	June	
1) All teachers will be trained in the Response to Intervention (RTI) model and will use intervention strategies prior to a student failing.	Principal, Classroom teachers, Special Programs Director, NWTSSA Director	The number of students failing ELA and Writing State Assessment will decrease.					
2) An intervention period is included in the school day to provide acceleration of instruction for students weak in the areas of Language Arts / Writing.	Principal	master schedule					
3) Interventions will be offered during the day as needed for supplemental instruction to address the differences in ELA/Writing scores for the following student groups: male/female, ethnic groups, economically disadvantaged, and at-risk.	Literacy Coach	Differences in testing scores will decrease; a decrease in the failure rate for student groups mentioned					
4) Teachers will implement TEKS Resource System and sequence in Language Arts.	Teachers, Principal	Lesson plans					
5) Teachers will integrate technology including SMARTboard into the classroom instruction following the technology TEKS and the District Technology Plan.	Teachers, Principal	Lesson plans					
6) Students identified as gifted and talented will participate in the Advance Academic Services Program in order to meet their needs in the area of ELA/Writing.	ELA teachers, Principal, AAS campus coordinator, Special Programs Director	End of year Student, Parent and Teachers surveys					
7) Students identified as Special Education, Dyslexic, LEP, or 504 will take State Assessment practice tests and/or Benchmarks as determined by the appropriate committee.	Special Programs Director, NWTSSA Director, ARD, LPAC, Dyslexia Committee, Principals	Student performance on state and local assessments will improve, number of student failing and/or drop-outs (and non-completions) will decrease					

8) Teachers will review testing data for all students using DMAC.	· •	DMAC records of teacher use, RtI interventions for		
		students in need of assistance. Student performance on state and local assessments will improve.		
9) Teachers will implement "Building Academic Language" in their daily	Classroom teachers,	Lesson plans will document "Building Academic		
instruction.	Principal	Language" activities, word walls, student performance on state and local assessments will improve.		
10) Tutorials will be offered during the school day and after school as needed for supplemental instruction to address differences in English scores for the following student groups: male/female, ethnic groups, economically disadvantaged, and at-risk.	Classroom teachers	Differences in state and local exam scores between the various student groups and failure rates will decrease, student performance on state and local assessments will increase.		
11) Teachers will analyze TAPR, DMAC, benchmarks, previous state assessments, and other testing data to focus on specific objectives needed for individual students accelerated learning needs.	Counselors	DMAC reports each six weeks, lesson plans will document specific interventions for individual students, Student performance on state and local assessments will improve.		
12) Curriculum Based Assessments (CBA) results will be used to respond to an individual's needs and for RTI purposes.	Principals, Teachers,	Lesson plans will document RTI interventions for individual students, student performance on state and local assessments will improve.		
13) ESL students will be served in an ESL class and/or with a certified ESL teacher in the core classes.	ESL staff, Principals, Special Programs Director	ELL student performance on state and local assessments including TELPAS will improve.		
14) Students identified with Dyslexia will be served in a Dyslexia program to address their need for accelerated learning in Language Arts.	Dyslexia teacher, Principal, Campus Dyslexia Committee, Special Programs Director	Student performance on state and local assessments will increase.		
15) All students will produce at least one piece of writing per semester and teachers will keep documentation.	Core teachers	Copies of publications containing student work, student writing portfolios		
Accomplished = Considerable	Some Progress	= No Progress = Discontinue		

Goal 1: By 2019-2020, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts, mathematics, science and social studies.

Performance Objective 2: All grades will achieve at least 93% mastery level within 3 years on the state assessment for Reading.

Summative Evaluation: The district average and subgroups of students will increase in reading in the aggregate who are at or above the proficient level in reading on the state's assessment. Student subgroups will increase as follows: H-3%, W-1%, EcoD-4% and SpEd-6%. (Note: These groups are those for which the ESEA requires state reporting and include students disaggregated by race, ethnicity, gender disability status, migrant status, English proficiency, and status as economically disadvantaged.

4) Students identified as Special Education, Dyslexic, 504 or ELL will take the appropriate state assessments and/or benchmarks as determined by the appropriate committee.	ESL teacher, LPAC committee, Special Programs Director	Student performance on state and local assessments will improve, number of student failing and/or drop-outs (and non-completions) will decrease				
5) Sunray ISD will provide effective training for all classroom teachers and mentors concerning innovative technique and strategies addressing the ELL students' needs.	Principal, Special Programs Director, ESL teachers	Staff development sign-in sheets, Lesson plans will document the use of appropriate strategies used to meet the needs of the ELL students				
6) Teachers will implement English Language Proficiency Standards (ELPS) into their daily instruction to increase ELL students' English acquisition.	Classroom teachers, Principals	Lesson plans will document the ELPS, student performance on state and local assessments including TELPAS will improve				
7) Teachers will use a variety of computer assisted programs for interventions with ELL students to improve their understanding of math concepts.	Classroom teachers, Principal, Special Programs Director	Student performance on state and local assessments will improve				
8) Teachers will use a variety of Region 4 Intervention Materials for Math to improve ELL students' understanding of Math concepts.	Math teachers, Principal, Special Programs Director	Student performance on state and local assessments will improve.				
9) All teachers will be trained in the Response to Intervention (RTI) model and will use intervention strategies to assist students prior to a student failing.	Principal, Teachers, NWTSSA Director, Special Programs Director	LEP student performance on state and local assessments will improve and the number of LEP student who fail or drop out will decrease.				
10) An intervention period is included in the school day to provide acceleration of instruction for weak areas in math.	Principal	Master Schedule				
11) Teachers will implement "Building Academic Language" into all math classes.	Math Teachers, ESL teacher, Principal	Lesson plans, Word Walls, increase student performance on local and state assessments				

12) Tutorials will be offered during the school day, after school as needed for supplemental instruction to address differences in English scores for the following student groups: male/female, ethnic groups, economically disadvantaged, and at-risk.	Principals	Student performance on state and local assessments will improve.		
13) Teachers will analysis TAPR, benchmarks, previous state assessments, and other testing data to focus on specific objectives needed for individual students accelerated learning needs.		DMAC reports each six weeks, lesson plans will document specific interventions for individual students, Student performance on state and local assessments will improve.		
14) Curriculum Based Assessments (CBA) results will be used to respond to an individual's needs and for RTI purposes.	Principals, Teachers,	Lesson plans will document RTI interventions for individual students, student performance on state and local assessments will improve.		
15) ELL students will be served in an ESL class and/or with certified ESL teachers in the core classes.		Student performance on state and local assessments including TELPAS will improve.		
16) Teachers will incorporate SMARTboard (interactive white board) technologies into their daily lessons.	Teacher, Principal	Lesson plans, Walk throughs, increase in student engagement and achievement.		
17) Students in grades 1-4 will use Accelerated Math to address their need of assistance and acceleration in the area of Math.	Teacher, Principal	Participating students' achievement will be equal to or better than non-participating students		
Accomplished	Some Progress	= No Progress X = Discontinue	 	

Goal 2: All Limited English Proficient (LEP) students will become proficient in English and reach high academic standards, at a minimum attain proficient or better in reading/language arts, mathematics, science and social studies.

Performance Objective 2: LEP students will improve at least 7% on the state reading/language arts tests.

Summative Evaluation: 70% of the LEP students will be at or above the proficient level in reading/language arts on the state's assessments.

	Staff Responsible		Formative Revie				
Strategy Description	for Monitoring	Evidence that Demonstrates Success	Nov	Jan	Mar	June	
1) Encourage teachers to obtain their ESL certification to better serve ESL students in the regular classroom.	Principal, Special Programs Director	ExCETS results submitted to Principal and Superintendent					
2) ESL teacher will work with Language Arts teachers to reinforce concepts learned in the regular classroom based on the needs of the individual student.	ESL teacher, LA teachers	Student performance on state and local assessments will show growth.					
3) Provide training for all classroom teachers and mentors concerning innovative techniques and strategies addressing the needs of ELL students	Special programs Director, ESL staff members	Review needs assessment for staff development; monitor: benchmarks, lesson plans; walkthroughs					
4) ESL classes will be set up in the master schedule to offer ELL students assistance.	ESL teacher, Principal, Special Programs Director	Student performance on state and local assessments in the area of LA will show growth.					
5) Students identified as Special Education, Dyslexic, ELL, or 504 will take State Assessment practice tests determined by the appropriate committee.	Special Programs Director, NWTSSA Director, ARD, LPAC, Dyslexia Committee, Principals	Student performance on state and local assessments will improve, number of student failing and/or drop-outs (and non-completions) will decrease					
6) Sunray ISD will provide effective training for all classroom teachers and mentors concerning innovative technique and strategies addressing the ELL students' needs.	Principal, Special Programs Director, ESL teachers	Staff development sign-in sheets, Lesson plans will document the use of appropriate strategies used to meet the needs of the ELL students					
7) Teachers will implement English Language Proficiency Standards (ELPS) into their daily instruction to increase ELL students' English acquisition.	Classroom teachers, Principals	Lesson plans will document the ELPS, student performance on state and local assessments including TELPAS will improve					
8) Teachers will use a variety of computer assisted programs for interventions with ELL students to improve their understanding of ELA/Reading concepts.	Classroom teachers, Principal, Special Programs Director	Student performance on state and local assessments will improve.					
9) Teachers will use a variety of Region 4 Intervention Materials to improve ELL students' understanding of ELA/Reading concepts.	ELA teachers, Principal, Special Programs Director	Student performance on state and local assessments will improve.					
10) All teachers will be trained in the Response to Intervention (RTI) model and will use intervention strategies to assist students prior to a student failing.	Principal, Teachers, NWTSSA Director, Special Programs Director	LEP student performance on state and local assessments will improve and the number of LEP student who fail or drop out will decrease.					

11) An intervention period is included in the school day to provide acceleration of instruction for weak areas in Language Arts/ Writing.	Principal	Master Schedule					
12) Teachers will implement "Building Academic Language" into all ELA classes.	ELA Teachers, ESL teacher, Principal	Lesson plans, Word Walls, increase student performance on local and state assessments					
13) Tutorials will be offered during the school day, after school as needed for supplemental instruction to address differences in English scores for the following student groups: male/female, ethnic groups, economically disadvantaged, and at-risk. Schoolwide Program Plan

Sunray Elementary conducted a comprehensive needs assessment for the 2008-09 school year during May, 2008. The Elementary schools has implemented schoolwide reform strategies which are scientifically research based to improve student performance. All staff members at Sunray Elementary are highly qualified teachers and/or professional staff. We will continue to have high quality and ongoing professional development for principals, teachers, and paraprofessionals. We have developed strategies to attract and retain highly qualified teachers and strategies to increase parental involvement. Sunray Elementary provides an early childhood program - Pre-Kindergarten and has a transistion plan for those students to be successful in Kindergarten. The Elementary school includes teachers in the decision regarding use, selection, and development of assessments for all students. Sunray Elementary school provides a response to intervention to assist and support students who experience difficulty mastering standards set by the state. The District Special Programs Director will assist in the coordination and integration among federal, state, and local services and programs for all campuses.

Ten Schoolwide Components

1: Comprehensive Needs Assessment

A comprehensive needs assessment was administered in May, 2008. This comprehensive needs assessment demonstrated that Math and Science were academic concerns for K-4th grades. Another need demonstrated by the comprehensive needs assessment is to improve our ESL academic achievement.

2: Schoolwide Reform Strategies

To improve the overall academic program at Sunray Elementary, the school will implement the CSCOPE curriculum in all core areas. In addition, Sunray Elementary school will build a RTI period into its day for both Math and Reading. The district will also implement an academic language focus to build the vocabulary of all students.

3: Instruction by highly qualified professional teachers

All staff members are deemed to be highly qualified by the State of Texas.

4: High-quality and ongoing professional development for teachers, principals, and paraprofessionals and, if appropriate, student services personnel, parents, and other staff

Staff will receive professional development on academic language throughout the school year during weekly collaboration time. Staff will also receive professional development on CSCOPE and curriculum throughout the school year during collaboration time. Staff will also receive on-going staff development on bullying, RTI, crisis management, GT, Dyslexia and ESL strategies through a variety of workshops, conferences and collaboration time.

5: Strategies to attract highly qualified teachers

Sunray ISD, Sunray Elementary Principal, Sunray Middle School Principal, and NWTSSA Director will participate in local and regional colleges job fairs to attract highly qualified teachers.

6: Strategies to increase parental involvement

Sunray Elementary School will increase parental involvement by having time set aside for parent/teacher conferences in both the spring and fall. In addition, each special program (Dyslexia, Gifted and Talented, ESL, etc.) will have a parent information night to explain their programs and opportunities for parental involvement to assist with student achievement. Light refreshments will be served during these parent information nights. Also, the schools will provide a parent volunteer program to assist students and teachers. Sunray Elementary and Valero-McKee Refinery will work together to provide adult mentors to assist struggling elementary students in reading.

7: Plans for assisting preschool children in the transition from early childhood programs to elementary school programs

Sunray Elementary's Pre-Kindergarten students will visit the Kindergarten classes to assist in the transition to Kindergarten. In the fall of their Kindergarten year, students who were in the Pre-K class will be assigned a "student buddy" to assist them in learning school routines.

8: Measures to include teachers in the decisions regarding the use of academic assessments in order to improve the achievement of individual students and the overall instructional program

Teachers are given data derived from academic assessments. Teachers use this data to improve their instructional program and to pinpoint individual students strenghts and weaknesses. Teachers then plan and implement interventions to improve the achievement of the individual students.

9: Activities to ensure effective timely assistance for students who experience difficulty mastering the proficient or advanced levels of academic achievement standards

Sunray Elementary School teachers are trained in the Response to Intervention (RTI) model. Students who experience difficulty in mastering the proficient or advanced levels of academic achievement standards will be placed in a Tier 2 or Tier 3 level of instruction to accelerate their achievement during the standard school day. In addition, before school or afterschool tutorials by the classroom teachers will be offered to all students needing assistance. Saturday school and extended day o **pportunities** are also offered to students needing accelerated instruction.

10: Coordination and integration of federal, state and local services and programs

The Special Program Director of Sunray ISD assists the principals and oversees the coordination and integration of federal, state and local services and programs to improve the overall instructional program.

Campus Funding Summary

District						
Goal	Objective	Strategy	Resources Needed Account Code	Amount		
5	1	10		\$0.00		
			Sub-Total	\$0.00		
Grand Total
