

MEMORANDUM

TO: Board of Education

FROM: Taw Lindsey
Superintendent of Schools

RE: ACTION ITEM

Date: February 18, 2025

Status: Seeking Board approval to purchase a Genetec server to support the District's video surveillance system from Advanced Communications in the amount of \$27,032.06. The funding source will be the 501 construction account.

Option 1: The Board may choose to approve the above action item as listed.

Option 2: The Board may choose to *not* approve the above action item as listed.

Recommendation: The Superintendent recommends the Board to approve the above action item as listed.

Issue Summary:

During the December 2024 board meeting, the Board approved migrating the District's video surveillance system to Genetec through Convergent Technologies. This migration has started, with TechOp's assistance. It has been determined that a new server needs to be installed in order to complete the migration. This new video management system will allow the District to use multiple brands of cameras, will link all buildings (including the new facilities building) into one system, and is easier to use for reviewing footage, thus allowing us to respond to security and safety issues in a more efficient manner.

Taw,

I can get the cameras replaced for the same cost as the original ones I quoted Dave at First city. The only extra is the new server we need to get this all wrapped up the retail cost on it is 37K. I got it down to 27K for you guys. This will be the new brain for the whole district. Would you like me to send it through first city on the admin building or separately to you guys? I know they are working on one of the NAS Drives ES for the system now. This will replace them all.

Thanks

Kirk Deal

Hi Kirk,

Let's keep the projects separate. Go ahead and send the quote to me for the server. We'll be funding it out of a different account than the Dawson project.

Thanks,

Taw
