

Board Report for Assistant Superintendent

September, 2025

Strategic Plan Focus Areas

Engagement

- ② Major kudos to Sarah Bentley and her team as they engage the community. Our Community Education programming, including our auditorium and pool, is going very well. Rachel S. and Jessica H. are ensuring that we are using system decisions to provide fair and responsive supports to our internal and external stakeholders. In addition, Noel Dean has been focused on improving our K-6 sports (Rec) experiences for students and families. Finally, a huge shout out to Bekka H. and Cassidy T. for their social media efforts to encourage participation. See Sarah Bentley's Board Report for the full picture.

Portrait of a Graduate

- ② We are currently looking for Food Service, Preschool, Custodial, and transportation staff (namely bus drivers and monitors). We have had recent success in securing staff in many departments.

Health and Safety

- ② Doug W. continues to update the new elements of the Emergency Operating Plan (EOP). The new templates will provide the common language for our buildings and staff to use in all situations as it relates to staff and student safety.

Respectfully Submitted,
Marcus Kaemming
