

Discuss Termination of Contract with Student Housing Project Institutional Architect

At its September 12, 2018 Regular Meeting, the Board of Regents approved a new concept for the student housing project that would require a residential architect. In order to enter into a new contract with a residential architect for the project, the Board Facilities Committee will discuss terminating the existing contract with EYP as the institutional architect for the project. Following discussion, the Facilities Committee will determine a recommendation to the Board of Regents regarding this contract termination with EYP.
