* As of Fall 2015, the capacity methodology for the five comprehensive high schools has been revised; it reflects the number of net classrooms and instruction spaces and a per-classroom load of 34 students. Special education spaces are not included.

** Per 2010 School Facility Plan approved by the Board on June 16, 2010. Capacity has been deducted for self contained Special Education, ESL, and Head Start programs.

*** Per the School Facility Plan, portable capacity for high school students is 23 students per classroom. This formula only applies to portables at Options schools; portables at the five comprehensive high schools are assumed to have a 34-student capacity.

****Options school enrollment figures include middle and high school students, for purposes of calculating utilized capacity.

*****Merlo Station includes Community School and Science and Technology School.
