First day start-up went well. Parents appreciated the opportunity to escort their students inside the first day for that special photo-op and to meet their child's teachers.

Our first Title 1 parent meeting was also held in the cafeteria. Our PRK parents and parents who are new to our community were invited.

Teachers are in the process of pre-assessing their students and adjusting their lessons accordingly. All required testing is also in the final stages.

Ms. Parker sent out our campus newsletter on September 12th. Progress Reports were sent out today.

Plans are in process for our annual Fall Open House. We are tentatively planning on a joint effort with the other campuses so that parents can visit all three campuses on the same night.

Career Exploration has begun! In a cooperative effort with Career Educators Inc., all of our students viewed an informational video on jobs and the preparation involved in reaching those goals. Several of our students got the opportunity to “dress-up” and thoroughly enjoyed the experience.
