Subject: November Board Report

November Board Report

Paraprofessional training:

The district paraprofessionals will be participating in their next professional development meeting on December 3rd. This training will be based on trauma and the impact on learning. This will be presented by Sarah Brennfleck from Perandoe.

Building level meetings:

The WHS special education department have had several meetings regarding benchmarking data and progress monitoring. The goal for that department will be to add in additional reading and math interventions to their curriculum for 2nd semester to assist in targeting areas needing improvement for students.

The JH special education department discussed their data and began making plans for consistent progress monitoring for areas needing improvement.

Best Buddies at WHS:

Mrs. Goeddel had requested and received free Polar Express tickets for the Transition classroom, staff and their best buddies to attend November 12th from the National Best Buddies Organization. The students are very excited and we cannot wait to experience this with them.
