Spring is in the air!

As I drive to work every morning, look out my office window, or play on the playground with the kids, I cannot help admire the beauty that surrounds us. The blooming trees, green grass, and abundance of animals are my daily reminder of how blessed we are to live in this beautiful valley. I can hardly believe April is upon us already. Hopefully you all had a chance to attend a parent-teacher conference to discuss your child's progress. I also hope you took some time to enjoy your Spring Break.

This time of year is busy. It is full of amazing academic growth, challenges and adventures. We have many class and school activities planned, we would love to have parents involved, volunteering and chaperoning. If you are planning on chaperoning a field trip or volunteering in the school, please make sure that you have filled out the Volunteer Application in the office prior to the date. Please remember to sign in at the office and get your volunteer badge before you go to your student's classroom.

Our first round of OAKS testing took place February and March for our third, fourth, and fifth grade students. Students who did not meet proficiency level will be given one more opportunity during late April and early May. We are excited to see their growth and celebrate the learning of all our students. I am amazed daily with the great students, talented hard-working teachers and support staff, and supportive parents.

Thank you for all you do to make Williams Elementary a great place for kids.

Happy Spring to you all.

Renee Hults

A big THANKS to students, parents, and our community for supporting our annual "Scholastic Book Fair" fundraiser and for attending our "Family Reading Night". You and your students purchased over \$1,200.00 in scholastic books. We were able to raise over \$500.00 for new books for the Williams school library! Students can look for new titles in the library in the next few months. Thanks again for your support.

Facts of the Day for April

Dear Williams Community,

The Facts of the Day are part of our school day and can be seen in every classroom and in the gym. Students are increasingly becoming more fluent in basic facts. Help by placing this calendar in a prominent place. Please remember that the addition facts are especially good for all grades, while the multiplication facts are intended for grades 3 -5. We appreciate all of your support! The more practice, the better the mathematicians!
