Extracurricular Activities Drug-Testing Program

The District has a strong commitment to the health, safety, and welfare of its students. Results of studies throughout the United States indicate that education alone, as a preventive measure, is not effective in combating substance abuse. Our commitment to maintaining the extracurricular activities in the District as a safe and secure educational environment requires a clear policy and supportive programs relating to detection, treatment, and prevention of substance abuse by students involved in extracurricular activities.

Purpose

The drug-testing program is not intended to be disciplinary or punitive in nature. Students involved in extracurricular activities need to be exemplary in the eyes of the community and other students. It is the purpose of this program to prevent students from participating in extracurricular activities while they have drug residues in their bodies, and it is the purpose of this program to educate, help, and direct students away from drug and alcohol abuse and toward a healthy and drug-free participation. No student shall be expelled or suspended from school as a result of any verified positive test conducted by their school under this program, other than as stated herein.

Scope

Participation in extracurricular activities is a privilege. This policy applies to all District students in grades 97-12 who wish to participate in extracurricular activities that are listed in the current student handbook and any other school-sponsored extracurricular activities not listed.

Consent Form

It is MANDATORY that each student who participates in extracurricular activities sign and return the consent form prior to participation in any extracurricular activity. Failure to comply will result in non-participation.

Each participant shall be provided with the Consent Form (3400F), which shall be dated, signed by the participant and by the parent/guardian. In so doing, the student is agreeing to participate in the random drug-testing program at Priest River Lamanna Junior/Senior High School.

Frequency Testing

1. All students will be tested at the beginning of the sport season and prior to participating. If the student athlete participated in a previous sport that year and has been subject to drug testing continuous thru the year, they will not be tested again on an initial sport season screening. If a student played a fall sport and did not play any more sports until the spring they would be subjected to an initial sport season screening prior to participating.
2. Random testing will occur at least once each month and may occur weekly during a sport season, ten percent of all student athletes, regardless of the sport, may be tested each week.

Testing Procedure

1. The selection of participants to be tested will be done randomly by the principal or administrative designee, and selections will be made from time to time throughout the school year. Names will be drawn from one large pool of those agreeing to be tested. Testing may occur on a different day, Monday through Saturday. This variable schedule will keep students conscious of the possibility of being tested at any time during the year. Each student will be assigned a number that will be placed in the drawing.
2. If the student shows signs of reasonable suspicion, the principal or administrative designee may call the student's parent/guardian and ask that the student be tested. Factors will include, but are not limited to, excessive discipline problems and/or excessive absences from school. Also, a parent/guardian may request testing of their student.
3. No student will be given advance notice or early warning of the testing. In addition, a strict chain of custody must be observed.
4. Upon being selected for a urinalysis test under this policy, either by random draw, reasonable suspicion, request of a parent/guardian, or a follow-up test, a student will be required to provide a sample of fresh urine, according to the quality control standards and policy of the laboratory conducting the urinalysis.
5. All students will remain under school supervision until they have produced an adequate urine specimen. If unable to produce a specimen, the student will be given up to 24 ounces of fluid. If still unable to produce a specimen within two hours, the student will be taken to the principal's office and told he or she is no longer eligible for any of the extracurricular activities. In addition, the parents/guardian will be telephoned and informed the student is unable to produce a sample for the testing procedure and that he or she may be tested at a later date to be reinstated for eligibility.
6. There is a head strip on each of the specimen bottles indicating the validity of the urine specimen by temperature. All specimens registering below 90.5 degrees Fahrenheit will be invalid. If this occurs, another specimen must be given by the student.
7. If it is proven that tampering or cheating has occurred during the collection, the student will become ineligible for all the extracurricular activities for the remainder of the school year. This will be reported to the parent/guardian.
8. Immediately after the specimen is taken, the student may return to class with an admit slip or pass with the time he or she left the collection site. The principal or administrative designee must note the time and sign the pass.
9. The specimens will then be turned over to the testing laboratory, and each specimen will be tested for alcohol, nicotine, and street drugs (which may include all drugs listed as controlled substances under the laws of the State of Idaho). Also, performance enhancing drugs such as steroids may be tested.
10. The laboratory selected must follow the standards set by the Department of Health and Human Services. It must be certified under the auspices of the Clinical Laboratory Improvement Act (CLIA) and the Joint Commission of Accreditation of Healthcare Organizations (JCAHO).

Chain of Custody

1. The certified laboratory will provide training and direction to those who supervise the testing program, set up the collection environment, and guarantee specimens and supervise the chain-of-custody. To maintain anonymity, the student's number, not name, will be used.
2. The principal or administrative designee will be responsible for escorting students to the collection site. The student should bring all materials with him or her to the collection site and should not be allowed to go to their locker. The administrator should not bring all the students drawn from the pool to the collection site simultaneously. Calling four or five students at a time allows the collections to be carried out quickly and will not cause students to wait a long time, thereby creating a loss of important time from class. Athletes may be called after school, including during practice time.
3. Before the student's urine is tested by the laboratory, students will agree to fill out, sign, and date any form which may be required by the testing laboratory. If a student chooses, he or she may notify the administrator that he or she is taking a prescription medication.
4. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student's possession until a seal is placed upon the bottle. The student will sign that the specimen has been sealed. The seal may be broken only by the lab testing the specimen.
5. If the seal is tampered with or broken after leaving the student's possession and prior to arriving at the lab, the specimen is invalid. The student will be called again as soon as possible. The student will remain eligible for extracurricular activities subsequent to a retest.
6. The supervisor obtaining the urine specimen will be of the same gender as the student. Students will be instructed to remove all coats and wash their hands in the presence of the supervisor prior to entering the restroom. The door will be closed so that the student is by him or herself in the restroom to provide a urine specimen. The supervisor will wait outside the restroom. The student will have two minutes to produce a urine specimen. The commode will contain a blue dye so the water cannot be used to dilute the sample. The faucets in the restrooms will be shut off.
7. After it has been sealed, the specimen will be transported to the testing laboratory by lab personnel. The testing laboratory will report the results to the principal or administrative designee.
8. In order to maintain confidentiality, the container which contains the urine specimen to be tested will not have the name of the student on the container. Instead, the student's random identification number will appear on the container. Also, the results sheet for the urinalysis will be mailed to the principal/administrative designee with no name attached; only the student's random identification number will appear on the results sheet.

Financial Responsibility

1. Under this policy, the District will pay for all initial random drug tests, all initial reasonable suspicion drug tests, and all initial follow-up drug tests. Once a student has a verified positive test result and has subsequently tested negative from a follow-up test, any future follow-up drug test that must be conducted will be paid for by the student or their parent/guardian.

2. A request on appeal for another test of a positive urine specimen is the financial responsibility of the student or their parent/guardian.
3. Counseling and subsequent treatment by non-school agencies are the financial responsibility of the student or their parent/guardian.

Confidentiality

Under this drug-testing program, any staff, coach, or sponsor of the District who may have knowledge of the results of a drug test will not divulge to anyone the results of the test or the disposition of the student involved, other than in the case of a legal subpoena being made upon that person in the course of a legal investigation. Once again, this will underscore the District's commitment to confidentiality with regard to the program.

Other Rules

Apart from this drug-testing program, the Idaho High School Activities Association and the coaching staff/sponsor of each sport/activity have their own training rules and requirements. Coaches/sponsors have the necessary authority to enforce those rules. Any student who violates a rule or requirement as a member of a team or activity will be subject of the consequences as defined in those rules and requirements.

Consequences

First Offense Grades 7-12 – Drugs or Alcohol/Tobacco

1. The student shall be suspended for 20% of the competitions/contests for that season (ie. Basketball has 20 games so a student would be suspended for 4 games). If the suspension occurs during a time where there is less than 20% of games left to play, then the student would be done for the remainder of the season, including any district or state competition and the remaining percentage from the next season (i.e. 10 % at the end of basketball and 10% at the beginning of baseball). If the infraction occurs during a state competition, the student will be suspended from state play with possible additional suspensions at the discretion of the principal and athletic director. If suspended for any part of the season, the student forfeits any post-season league honors and if suspended for district and state play, the student forfeits their letter and school post season awards. During suspension, the student will be allowed to practice but will not be allowed to travel, suit up for games, or sit on the bench at home games.
2. A student must also enroll in a principal and athletic director approved drug and/or alcohol substance abuse assistance program. The enrollment must occur before the suspension is over. The cost of the assistance program will not be paid by the District.
3. If the student does not agree to and abide by the conditions stated above, the student will be suspended from athletics for the remainder of the current sports season.

Second Offense Grades 7-12

A student athlete's second offense of the use or possession of smoking or chewing tobacco products, alcohol or drugs or any imitation, throughout grades ~~9~~7-12, will result in the following action.

1. Student shall be suspended for the remainder of the season of the current athletic program he/she is participating and also the next sports season for which the student is eligible to participate.

Third Offense- Grades 7-12 ?

1. Student will be suspended from all extracurricular activities for the remainder of their high school career. Offenses are cumulative.
