FOOD SERVICE

Online interactive menus: <https://menus.healthepro.com/organizations/3495>.

Friday, May 29th was our first Breakfast distribution for Summer Meals. We handed out 236 bags for a total of 1,652 meals. We started Summer Lunches on Monday, June 1st with a decent enough start at almost 125 children each day the first week.

Our breakfast distributions increased from last summer by about 15%. My thoughts for next summer is to continue the Non Congregate Breakfasts, but adding Friday, Saturday and Sunday lunches, as well. There would be no congregate lunch on Fridays, as this day would be used to get our freight, pack bags and distribute. Fridays have been a little rough with working long hours to capture as many parents as possible to pick up bags, and putting away thousands of pounds of freight, serving lunch, setting up bags and then distribution. It would increase our lunch sales by approximately 500 a week, with little to no more labor hours.

UPCOMING EVENTS

Our Administrative Review for the Summer Food Service Program (SFSP) in June went very well. Our reviewer was very pleased with our program. We continue to work with Unalaska, to help them be compliant.
