SBE Team

SBE Week is Underway!

This week is SBE Week, and our teachers and staff are working diligently to prepare for an exciting 2026–2027 school year! We are spending time collaborating as teams, planning engaging lessons, organizing classrooms, reviewing student data, and participating in professional learning to ensure we are ready to provide the best possible learning experience for every student.

One of the exciting additions this year is the implementation of our new math curriculum, **Math & You**. This curriculum will provide students with meaningful, hands-on learning experiences that strengthen mathematical thinking, problem-solving, and real-world application. Throughout the week, teachers are becoming familiar with the new resources and planning instruction that will help build confidence and success in mathematics for all learners.
