The district does not have a database utilized to track this type of information. I have attached what information we could find for your FOIA request. The district does not impose any athletic participation fees for athletes participating in interscholastic activities.

Thanks

I have contacted our athletic department and they are working on finding the rosters for all other sports during the years requested. The Athletic Director did say he had numbers available but not names so that would be hard to find the free/reduced numbers. After the rosters are figured I will forward to our cafeteria department to help with the free/reduced numbers.

This week has been homecoming week and been a little busy but hope to have this by the end of next week.
