BOARD REPORT: SI EVAL

In preparation for the upcoming SI evaluation, we have provided both the Evaluation/Review Timeline and revised rubric. The timeline is designed to ensure that the current Board evaluates Dr. Kelley. The rubric is the same as last year subject to certain deleted sections. To identify which sections to delete, we reviewed Dr. Kelley's goals and which domains each goal area applies to and then deleted the ones that do not link to a goal. The document highlights in blue the ones that are slated to be deleted.
