Jeff/Jason,

See below costs for the temp heaters if we rent from our warehouse.

350,000 BTU heaters	\$840/month
Duct	\$150/month
Hose	\$80/month

The cost is lower per month but these are smaller units than what Sunbelt quoted which has the possibility of adding more heaters. Not saying that we will need more as that will all depend on what is going on in the building and what the temperatures are outside. I have reached out to the HVAC contractor to get some additional information from them on running the units in the classrooms only and not the large units as well. Hoping to get something back from them tomorrow.

Thanks,

Ryan Fuhler |Senior Project Manager

Ryan,

Please get in touch with Jeff or I sometime tomorrow. We need to finalize plans for the heaters and what will be presented at Monday's school board meeting.

Jason

Jason,

As discussed, Poettker will pick up half the rental cost of the temporary heaters if we plan on providing them or if they are rented through a rental company. Let me know if you have any other questions.

Thanks,

Ryan
