We increase our lunch number by 224 this year so far.

### Projects

- ✚ We are looking to hire a part time employee at Minico to help with the cafeteria tables and to help with serving.
- ✚ We hope to be able to start demolition of the in the east side of our warehouse so that we can expand our dry storage and our freezer space.
- ✚ We have added an electronic monitoring system on our walk-in freezers and cooler at our warehouse. We set a low temperature limit and a high temperature limit and if one of the walk-ins goes beyond those limits then we get a text message letting us know that we may have a problem. This should save us from having a problem over the weekend or during holidays and not knowing about it.

If there are any questions fell free to come and visit or just give us a call. We would be glad to show you all what we are planning on doing on the east side of our warehouse.
