

DRAFT UPDATE

Operational Services

Safety

Safety and Security

All District operations, including the education program, shall be conducted in a manner that will promote the safety and security of everyone on District property or at a District event. The Superintendent or designee shall develop, implement, and maintain a comprehensive safety and security plan that includes, without limitation:

1. An emergency operations plan(s) addressing prevention, preparation, response, and recovery for each school;
2. Provisions for a coordinated effort with local law enforcement and fire officials, emergency medical services personnel, and the Board Attorney;
3. A school safety drill plan;
4. Instruction in safe bus riding practices; and
5. A clear, rapid, factual, and coordinated system of internal and external communication.

In the event of an emergency that threatens the safety of any person or property, students and staff are encouraged to follow the best practices discussed for their building regarding the use of any available cellular telephones.

School Safety Drill Plan

During every academic year, each school building that houses school children shall conduct, at a minimum, each of the following in accordance with the School Safety Drill Act, 105 ILCS 128/:

1. Three school evacuation drills
2. One bus evacuation drill
3. One severe weather and shelter-in-place drill
4. One law enforcement drill

Automated External Defibrillator (AED)

The Superintendent or designee shall implement a written plan for responding to medical emergencies at the District's physical fitness facilities in accordance with the Fitness Facility Medical Emergency Preparedness Act. The plan shall provide for an automated external defibrillator (AED) to be available according to State law requirements. This policy does not create an obligation to use an AED nor is it intended to create any expectation that an AED will be present or a trained person will be present and/or able to use an AED.

Carbon Monoxide Alarms

The Superintendent or designee shall implement a plan with the District's local fire officials to:

1. Determine which school buildings to equip with approved carbon monoxide alarms or carbon monoxide detectors.
2. Locate the required carbon monoxide alarms or carbon monoxide detectors within 20 feet of a carbon monoxide emitting device, and

Comment [AKL1]: 105 ILCS 5/10-20.56, added by P.A. 99-470, eff. 1-1-16. *Carbon monoxide detector* and *detector* mean a device having a sensor that responds to carbon monoxide gas and that is connected to an alarm control unit and approved in accordance with rules adopted by the Ill. State Fire Marshal. *Approved carbon monoxide alarm or alarm* means a carbon monoxide alarm that complies with all the requirements of the rules and regulations of the Ill. State Fire Marshal, bears the label of a nationally recognized testing laboratory, and complies with the most recent standards of the Underwriters Laboratories or the Canadian Standard Association (430 ILCS 135/5).

Consult both the board attorney and the local fire officials about whether a school building is exempt from this law. Remove this subhead if the board attorney determines that every building across the entire school district is exempt. The law applies to school buildings that have or are close to any sources of carbon monoxide; however, it does not specifically define what that means. 430 ILCS 135/20 defines exemptions for residential units and may provide guidance on the exemption for schools. The law also fails to define *carbon monoxide emitting device*, which triggers the placement point in a school building for a carbon monoxide alarm or carbon monoxide detector.

Issue 90, October 2015

DRAFT UPDATE

3. Incorporate carbon monoxide alarm or detector activation procedures into each school building that requires a carbon monoxide alarm or detector. The Superintendent or designee shall ensure each school building annually reviews these procedures.

Unsafe School Choice Option

The unsafe school choice option allows students to transfer to another District school or to a public charter school within the District. The unsafe school choice option is available to:

1. All students attending a persistently dangerous school, as defined by State law and identified by the Illinois State Board of Education.
2. Any student who is a victim of a violent criminal offense, as defined by 725 ILCS 120/3, that occurred on school grounds during regular school hours or during a school-sponsored event.

The Superintendent or designee shall develop procedures to implement the unsafe school choice option.

Emergency Closing

The Superintendent is authorized to close school(s) in the event of hazardous weather or other emergency that threatens the safety of students, staff members, or school property.

Annual Review

The Board or its designee will annually review each school building's safety and security plans, protocols, and procedures, as well as each building's compliance with the school safety drill plan.
