RE: BMS Course Catalog, 2026-2027 Updates

---

The Beach Middle School Course Catalog is designed to serve as a guide for students and parents in understanding the course offerings for students at each grade level. The scheduling process for the 2026-2027 school year will take place in the spring of 2026, and further information will be communicated with students and families at that time.

**Here are the proposed changes/updates to the catalog for the 2026-2027 school year:**

- Revised design and organization of course catalog and added notes to each section for clarity.
- pg. 2: Added “World Languages & Adventures” and description to Rotation courses. This is a 6th-grade course piloted last year as part of our World Languages programming.
- pg. 5: Added “Real World Math” and course description. This course was offered in previous years but was not on the “Explore” list.
- Pg. 6: Added “Visual Design” and course description. This course was offered in previous years but was not on the “Explore” list.
- pg. 6: Added “Weight & Fitness” and course description. This course was offered in previous years but was not on the “Explore” list.
- pg. 6: Added “Life Skills” as an Academic Support course. This course is offered in our Resource Room programs and should be reflected in the catalog.
- pg. 6: Added “Math Skills” as an Academic Support course. This course is the mathematics counterpart to Literacy Skills and has been offered in previous years but was not listed in the catalog.
- pg. 6: Added “Beach Block” and description.

Respectfully,

Adam Schilt  
Principal, Beach Middle School
