Overview

Classroom knowledge and skills are applied as students identify and evaluate cut flowers, house plants, flowering plants, floral designs and complete an exam that tests their knowledge of floral design, propagation as well as preparation of floral and foliage products for sale.

State winning team advances to national competition which is held during the National FFA Convention in late October.

Overview

Students apply classroom knowledge to evaluate production, processing, marketing and consumption of chickens, turkeys, processed products and eggs. Participants complete a written exam, solve a management problem, evaluate animals and products, as well as identify various poultry products.

State winning team advances to national competition which is held during the National FFA Convention in late October.

*****The new Poultry Science Manual (7th edition, Catalog No. 418-7) is now available from IMS. Unless noted otherwise by individual contest rules, the new manual will be used to conduct the all contests.*****

UPDATE 1/30/17 - For any poultry evaluation CDE developed and conducted by Texas A&M University for the Spring 2017 CDE cycle (invitation-state), information from the following two sections Marketing Poultry Products and Processing Poultry Products will NOT be included in the written examination.
