ACTION

Background Information

Softball/Tennis Locker Room & Team Room

Currently, our softball team changes in a facility located near the gymnasium, requiring athletes to travel a significant distance to and from practices and games. Constructing a dedicated locker room past center field at the softball field will provide a safer, more convenient, and more functional space for our student-athletes.

This project also benefits our tennis program by incorporating a multi-purpose team room. During all-day tournaments, the space will serve as a climate-controlled area where student-athletes can rest, meet, and prepare between matches, offering relief from extreme heat or cold. The facility will also provide convenient access to student/athlete restrooms and ice, enhancing the overall experience for both programs.

Administration Recommendation

The Administration recommends approval the project

Board Action Required

"I make a motion to approve to approve building of the softball locker room"
