

INFORMATION REPORT

Final Report of the Vision 2016 Strategic Plan

The Vision 2016 Strategic Plan included four strategic goals.

- Improve academic success by implementing strategies for completion.
- Provide access to innovative higher education programs that prepare students for constantly changing academic, societal, and career/workforce opportunities.
- Engage faculty, students, and staff in improving a district-wide culture of adherence to the Collin College Core Values.
- Enhance the College's presence in the community by increasing awareness, cultivating relationships, building partnerships, and developing resources to respond to current and future needs.

College-wide initiatives took place in divisions across the college to help meet the objectives outlined within this plan. These have helped guide students in degree planning, identifying career paths, completing certificates and degrees, and in helping them be prepared for their futures in the workforce with relevant, meaningful knowledge and skills.

In addition, initiatives to expand partnerships with our ISD and University partners have resulted in a number of new programs and opportunities for Collin's students.

The Vision 2016 Strategic Plan has fostered community awareness of the college and its programs and has resulted in new resources to help our students succeed. Additional information on any of these programs is available upon request.
