Key Considerations for the Development of the AHISD School Calendar

that includes a minimum of 75,600 minutes of instruction for students. State funding requires this minimum. Minutes for a school day are taken from start time to end time, then multiplied by the number of days that students attend. The draft 2026-27 calendar has 170 days for elementary and 172 for secondary, which is the same is 2025-26.

Parameters for the School Calendar. State law requires districts to create a calendar

Start of School. For 2026-27, AHISD will begin school on a Wednesday, like 2025-26. It is August 19th for 2026-27

need to take more than two bad weather days.

- Last Day of School. For the past several years, AHISD has been creating a
 calendar that has the last day of school before the Memorial Day weekend.
 Community feedback has been clear regarding this preference, so we will continue to
 practice ending before the Memorial Day Holiday
- Inclement Weather Days ("bad weather days"). To account for missing days of instruction because of bad weather, districts must plan in excess minutes of instruction of the minimum requirement of 75,600. AHISD builds in the equivalent of at least two schools worth of minutes in surplus to accommodate for bad weather closures. We also
- State funding and Student Attendance. State funding is based on Average Daily
 Attendance of students, so in building the calendar, we are mindful to avoid situations in
 which families would want to pull their children out of school early because that would
 hurt our funding. If school is in session, having your child at school helps your school's
 funding. When your child is not there, it hurts your school's funding.

identify two additional bad weather days on two Teacher Work days in case we ever

- Teacher Days of Employment. State law sets the standard contractual obligation for teachers to be 187 days of service for teachers (known as a "chapter 21 contract").
 This means that, as we ensure the minimum required minutes of instruction for students, we must account for 187 days for teachers to work.
- Early Release Professional Development Days. State law allows you to count Staff Development time toward Instructional Minutes if it happens on a day when students attend school for at least 120 minutes. This is one way that we can carve out important time for staff to meet to hone their craft without having to add more school days onto the school year or to eliminate school days. AHISD has two of these days scheduled: one in the fall and one in the spring. These early release days are placed on Wednesdays instead of Fridays to avoid people keeping their children home the
- whole day, which would hurt the funding for your child's school (because funding is based on student attendance).

 Elementary Parent Conferences. Students at Howard, Cambridge, and Woodridge Elementary schools have one student holiday in the fall and one in the spring labeled as Parent Conference Day. Not many districts dedicate time like this for parents to meet with their children's teachers to talk about their progress at key times during the

there is not enough room to conduct all the parent conferences on one day, teachers also schedule parent conferences other times that week. Still, lots of the actual parent conferences do occur on the teacher workday/student holiday. Not only do the actual conferences take up time (15 minutes per child for every child taught, and more if a teacher team teaches with another teacher), but the writing of thorough notes for the parents and for our records require the time allotted both on the Teacher Workday a week or so prior and on the actual day of the parent conference student holiday.

school year (Eanes ISD does this, too). For the convenience of parents and because

Teacher Workday/Student Holiday. AHISD schedules five Teacher
Workday/Student Holidays strategically throughout the school year as response to
teacher needs and as a teacher retention and recruitment tool. The October teacher
workday and the February teacher workdays are placed one week prior to elementary
parent conferences to provide elementary teachers the time to prepare. While we
recognize that any day off of school can be a challenge for working families, we have
responded to community input to schedule teacher workdays on a Friday or a

Monday, often placing them against another holiday to give families the opportunity

- for extended 4 day weekends. Teacher Workdays are also placed the day after winter break and the day after spring break so that teachers can use the day to prepare for students to return.

 Fall Break and Mid-Winter Break. For years, AHISD students have had a school holiday on the second Monday in October. To create a "fall break" for families and to provide a valuable Teacher Workday for employees, we have made the preceding Friday a student holiday, too, so that families can have a 4 day weekend. Similarly, we have created a "mid-winter break" that includes the third Monday in February, an AHISD student holiday for years, with a preceding Friday student holiday/Teacher
- Workday.

 Spring Break. AHISD has several employees who live in the attendance zones of surrounding school districts, like Northside, NorthEast, and San Antonio ISDs, and several of them have children who attend those districts. Likewise, UIL competitions for both fine arts and athletics often deal with schools in the surrounding districts. This is one major reason why AHISD tries to coordinate its spring break with neighboring school districts. Another consideration for Spring Break is which Sunday
- that daylight savings time begins ("spring one hour forward"). Having that begin the Sunday that we start Spring Break is helpful for both students and employees because of its impact on sleep.

 Homecoming Week. The calendar is set well before next year's football schedule and identification of homecoming week occur. Establishing which week will be homecoming week is done independent of the development of the school calendar.
- Fall Events to Plan Around. In the 2026-27 school year, Howard Hay Day is
 planned for Thursday, October 1st, the Woodridge Carnival is planned for Friday,
 October 30th, and the Alamo Heights School Foundation Greater Heights Night is
 Wednesday, November 4th. These are events that a large portion of our community
 are involved in, so we are mindful to avoid them when scheduling early release/staff
 development days or Teacher Workday/Student Holiday dates.

Workdays/Student Holidays and Early Release/Staff Development Days

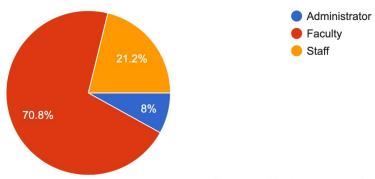

- Recruitment and retention tool.
- Spread throughout the year
 - before or after 9 week grading period
 - After winter and spring break
- Student Early Release for Staff Development
- Teacher Workdays: not toward 75,600 minutes
- Early Release days: Wednesdays instead of Fridays because of state funding and attendance

Survey Responses

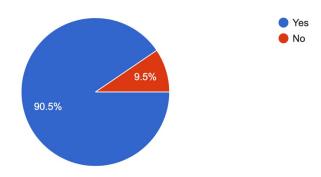

My relationship to AHISD is:

137 responses

I agree with the proposed DRAFT $\,$ 2026-2027 Calendar.

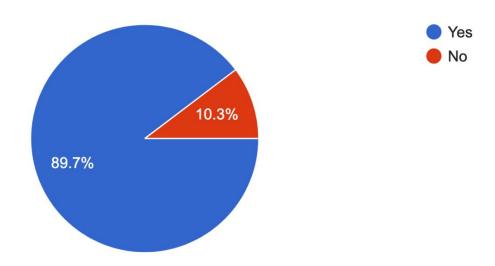

137 responses

Parent responses

I agree with the proposed DRAFT 2026-2027 Calendar.

97 responses

Open ended feedback themes

Staff

- Appreciate the Teacher workdays, especially after winter and spring break
- Most appreciate starting on a Wednesday, while a few don't
- Most appreciate ending before memorial day

Parents

- Most appreciate starting on a Wednesday, while a few don't
- Most like starting a week later in August

Consideration

I request that the Board of Trustees approve the draft 2025-26 calendar in the board book, as presented.
