Current Routes without assigned driver- 0
SPED Route without Monitor- 1.5

Current Prospects in Behind the Wheel Training- 1

NTAPT Conference & Training

Our Transportation team attended the TAPT Training and Conference in The Woodlands at the end of June. They gained valuable knowledge and new ideas to bring back to our drivers and monitors while learning best practices to help keep our fleet running safely and efficiently.

Training has been BUSY!

Our Transportation Trainer has had a busy summer! He began with a cohort of six coaches, and five have already earned their CDL. The final participant is scheduled to take the CDL test next week. Congratulations to the group on this outstanding achievement, and best of luck on the final test!

Revamping our Space to Welcome our Staff Back!

We've given our staff lounge a fresh new look to create a more welcoming and comfortable space for our team. Whether they're taking a break, enjoying lunch, or connecting with coworkers, we hope this updated space provides a place to relax and recharge.

We are Ready to Welcome a New Year!

We're excited for the great year ahead! Our mission, **Every Rider, Every Route, Every Day**, has been embraced as we continue our commitment to providing safe, reliable transportation and exceptional service. We look forward to serving not only our riders but also supporting and serving our staff who make it all possible. Together, we're ready for a successful year ahead!
