

Curriculum Director August Board Report

Assessment Update

All corrections have been made to our assessment data. Thank you to Judy Scherzer for getting all of these corrections made. Test results are in; we are waiting for them to become final. I plan on sharing results in September and October.

We have testing dates except for IAR (Grades 3-8). All students in Grade 11 will take the science test this year. Previously all students in biology took the tests. Science test this Spring will count for our ESSA designation for the 2020 report card.

State Report Card

The Report Card will come out October 30th. The biggest change this year for the State Report Card is expenses will be reported by building.
