Subject: Legislative update regarding Achievement Compacts

On June 11, the Oregon House approved House Bill 3075 on a 43-11 vote and the legislation is on its way to Governor Kitzhaber to be signed into law. The bill was put forward at the request of OSBA and makes several important changes to current mandates on K-12 school districts and education service districts. Most relevant for many K-12 districts and ESDs is that it changes the date for submission of "achievement compacts" from July 1 to October 15 for the 2013-14 school year. Please note that the submission date is unchanged for community colleges.

If your K-12 district or ESD has already submitted your achievement compact, you will have the opportunity to make revisions after the Department of Education releases student achievement data later this summer. If you have not yet submitted your 2013-14 achievement compact, your district will have until October 15 to finalize and submit the document.

There will be a more detailed communication from the OEIB and ODE regarding this change in the coming days. Please let me know if you have any questions.

Best regards,
