

SECTION 7 - STUDENTS

7:130 Student Rights and Responsibilities

The Board of Education recognizes that students possess not only the right to an education but the rights of citizenship as well.

All students are entitled to enjoy the rights protected by the [U.S.](#) and [Illinois Constitutions](#) and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures.

Students may, during the school day, during noninstructional time, voluntarily engage in individually or collectively initiated, non-disruptive prayer or religious-based meetings that, consistent with the Free Exercise and Establishment Clauses of the [U.S.](#) and [Illinois Constitutions](#), are not sponsored, promoted, or endorsed in any manner by the school or any school employee. *Noninstructional time* means time set aside by a school before actual classroom instruction begins or after actual classroom instruction ends.

In providing students the opportunity for an education to which they are entitled, the District shall attempt to offer nurture, counsel, and custodial care appropriate to their age and maturity. The District shall, at the same time, guarantee that no student is deprived of the basic right to equal treatment and equal access to the educational program, due process, a presumption of innocence, free expression and association, and the privacy of his/her own thoughts.

Attendant to the rights guaranteed to each student, however, are certain responsibilities, which include respect for the rights of others, obedience to properly constituted school authority, and compliance with the guidelines and rules of the District.

The Board realizes that as students differ in age and maturity, so they differ in ability to handle both the rights of citizens and the concomitant responsibilities. The exercise of each right shall be granted, therefore, with due regard for the degree of responsibility possessed by the student and the student's need for the continuing guidance and control of those responsible for his/her education.

Since a student who has reached the age of majority possesses the full rights of an adult, s/he may authorize those school matters previously handled by his/her parents, but s/he also assumes the responsibility for his/her performance in school, attendance, and compliance

with school rules.

Administrators, counselors, and teachers shall not provide a supporting affidavit for students who have petitioned the court to grant them the status of emancipated minors unless prior approval has been obtained from the Superintendent or designee.

Parents also have rights in the school system to know about their student's educational experience. Specific rights are listed in topic areas of these policies.

In addition, parents have the right to inspect any instructional materials used as part of the educational curriculum for their student. Instructional materials means instructional content, regardless of format, that is provided to the student, including printed or representational materials, audio-visual materials, and materials available in electronic or digital formats (such as materials accessible through the Internet). Instructional material does not include academic tests or academic assessments.

The Superintendent or designee shall, in consultation with parents, develop a procedure addressing the rights of parents and procedures to assure timely response to parental requests to review instructional material. The policy shall also address reasonable notification to parents and students of their rights to review these materials.

This policy shall not supersede any rights under the Family Education Rights and Privacy Act.

- C1. The Equal Access Act (EAA) requires a secondary school that receives federal funding and allows a *limited open forum* to grant fair opportunity or equal access to students who wish to conduct a meeting within that limited open forum without regard to the religious, political, philosophical, or other content of the speech at such a meeting. A secondary school has a *limited open forum* whenever it “grants an offering to or opportunity for one or more noncurriculum-related student groups to meet on school premises during noninstructional time.” 20 U.S.C. §4071(a). **Issue 122, June 2026**
