PURPOSE OF RECOMMENDATION:

Each school year the Board of Trustees should consider and approve the district's Behavioral Threat Assessment Team(s). The Behavioral Threat Assessment Team(s) are a key element of Safe and Supportive Schools. To promote the safety and well-being of the members of the school community, the Safe and Supportive School Program Team is tasked with reviewing threat reports, conducting threat assessments, and developing interventions to support individuals who pose threats and the targets of such threats. The threat assessment process is designed to preserve a safe school environment that promotes the physical and psychological safety of all members of the school community. The TEA has coordinated with the Texas School Safety Center to develop guidance and resources to establish a comprehensive threat assessment model.
