Agenda Item Caption: Discussion of Accountability Update

Purpose of Agenda Item: Information only

Administrative Recommendation: None

Background Information: Annual Public Meeting to Share Accountability Ratings. Each year, the Texas Education Agency (TEA) assigns campuses and districts a state accountability rating. The ratings are based on student academic performance on required state assessments, College, Career, and Military Readiness (CCMR), and graduation rates. TEA calculates each domain separately, using its own specific components, to determine that domain's rating. Ratings will be posted publicly as an A, B, C, D, or F for each domain and overall. Reported elements will be the overall ratings of the aggregated data, which includes State of Texas Assessments of Academic Readiness (STAAR) Performance, CCMR, Graduation Rate, English Language Proficiency, Academic Achievement, and Growth. Districts and campuses will be subject to state and federal school improvement requirements based on guidance from the Texas Education Agency. School improvement identification is posted with the ratings. Additionally, campuses are able to receive a distinction designation for performance on specific indicators that rank within the top quartile when compared to the forty campuses in their respective comparison group.

Fiscal Analysis: None

Regulatory Requirement: There is not a regulatory requirement to report A-F Accountability ratings. TEC §39.361 requires districts to state whether one or more of its campuses have been awarded a distinction designation or have been identified as unacceptable, along with an explanation of the significance of that information.
