

Superintendent Comments
Regular Board Meeting
August 25, 2026
5:00p.m.

1. Discussion of Commissioner's Review and Comment on Proposed Referendum.
As you know, the District submitted a Review and Comment request to MDE regarding the proposed referendum. Included are two funding sources combined into one question. The District received a positive review from the Commissioner of Education. There is no action required on this item as it is a requirement to have a discussion.
2. Notice of Intent to Negotiate
This is not an action item. Superintendent Bob Jaszczak has submitted a letter of intent to negotiate per the superintendent contract. The new contract would begin effective July 1, 2027 via successful negotiations.
3. MSBA Legislative Resolution Topics
This is an opportunity for school districts to present priorities for MSBA as the legislative platform is built. Until we develop something specific, this will not be an action item.
4. Superintendent Mileage Reimbursement MOU
I recommend a motion to approve the Superintendent mileage reimbursement MOU. According to the existing superintendent contract, the superintendent receives \$150 per month for vehicle reimbursement. The superintendent is asking that beginning Aug. 1, 2026, reimbursement would be made for actual miles driven at the current federal mileage reimbursement rate in place of the \$150 vehicle reimbursement. The superintendent would be required to track miles and submit on a monthly basis.
5. Cardiac Emergency Response Plan
This is an informational item only. Each year the school board is to review the Cardiac Emergency Response Plan. Since this is the first year of the requirement, it is appropriate to review as an agenda item rather than placing it into the consent agenda.
6. Public Summary of Superintendent Mid-Year Evaluation
The Board went into closed session in June for the superintendent evaluation. Board Chair Riester will have a summary.
