SUBJECT: Request for Approval to Name the Food Pantry at Two Rivers in Recognition of Hogan & Associates Construction.

The Weber School Foundation has established a Food Insecurity Endowment Fund to provide ongoing support for food pantry requests throughout Weber School District. This fund is designed to serve students and families in perpetuity, ensuring that those facing food insecurity have reliable access to the resources they need. In support of this mission, Hogan & Associates Construction has made a significant financial contribution to the endowment fund. Their generosity will have a lasting impact by strengthening food pantries districtwide and sustaining efforts to meet student needs for years to come. To recognize and honor Hogan & Associates Construction's commitment, in accordance with WSD Policy 3250, Section IV.D.4, the Weber School Foundation would like to request the Board of Education's approval to name the food pantry at Two Rivers in their honor.
