Subject: Proposal to adjust September contract payment date

To: Rich Schneider <rschneider@isd2190.org>

Rich,

As we discussed last week, we are requesting that our regular September route payment be issued on September 1 each year for the remainder of our current transportation contract, rather than waiting until after the September School Board meeting.

The September 1st payment, we would bill only our regular monthly route amount, as we normally do. Any additional transportation, activity trips, or other extra billing incurred during September would be submitted with the following month's billing.

This request would not change the total amount of our contract or increase the District's financial obligation; it would simply adjust the timing of our regular September route payment.

I've attached September 2026 bill.

We appreciate your consideration.

Thank you,
Rory
