

Board Report Department of Technology

To: Mrs. Jones and the Board of Trustees
Date: Sept. 14, 2026
Subject: Technology Department Board Report

Technology Updates

We replaced all network switches in the Admin Building and Culinary area with Ruckus switches. Middle school and High school wireless access points were replaced with Aruba 655 access points. An upgrade to Classlink was purchased in order to use the Launchpad feature to conduct assessment test with students. SuccessEd was setup in order to automatically share data between Skyward and Special Ed 504, IEP, etc. entries. ParentSquare was upgraded to include attendance tracking for truancy purposes. Smart upgrade modules were purchased for every Smart board in the district to help extend the life of the board for another 5 years.

Technology Upgrades

30 Verkada cameras were upgraded to CD43 instead of CD41. Verkada alarm consoles were upgraded at the admin building, bus barn, and ag shop to help facilitate the new alarm system.

Cybersecurity Update

Cybersecurity remains to be of importance for all school districts. We have had no cybersecurity threats for the last 3 months.

E-rate Update

We purchased new Aruba access points for the middle school and high school with E-rate funds to replace the existing access points.

Problems and Needs
