

Port Orford-Langlois School District

Code:
Adopted:

IGBHE

Expanded Options Program**

The Board is committed to providing additional educational options to eligible students enrolled in grades 11 and 12 to continue or complete their education, to earn concurrent high school and college credits and to gain early entry into post-secondary education. The district's Expanded Options Program (EOP) will comply with all requirements of Oregon law (ORS 340) and give priority status to "at-risk" students.

Eligible Students

Eligible students may apply to take courses at an eligible post-secondary institution through the Expanded Options Program. A student is eligible for the EOP if the student:

1. Is 16 years of age or older at the time of enrollment in a course under the EOP;
2. Is in grade 11 or 12 at the time of enrollment in a course under the EOP or has not yet completed the required credits to be in grade 11 or 12, but the district has allowed the student to participate in the program;
3. Has developed an educational learning plan;
4. Has not successfully completed the requirements for a high school diploma. A student who has graduated from high school may not participate; and
5. Is not an exchange student enrolled in a school under a cultural exchange program.

Student Notification

Prior to February 15 of each year, the district shall notify all high school students and the parent or guardian of students of the EOP for the following school year. The district will notify a transfer high school student, or a student returning to high school after dropping out of school, of the EOP if the student enrolls after the district has issued the February 15 notice. The district will notify a high school student who has officially expressed an intent to participate in the EOP, and the student's parent or guardian, of the student's eligibility status within 20 business days of the expression of intent.

It is a priority for the district to provide information about the EOP to high school students who have dropped out of school. The district shall establish a process to identify and provide those students with information about the program. The district shall send information about the program to the last-known address of the family of the student.

The notice must include the following:

1. Financial arrangements for tuition, textbooks, equipment and materials;
2. Available transportation services;

3. The effect of enrolling in the EOP on the student's ability to complete high school graduation requirements;
4. The consequences of failing or not completing a post-secondary course;
5. Notification that participation in the EOP is contingent on acceptance by an eligible post-secondary institution; and
6. District timelines affecting student eligibility and duplicate course determinations.

Enrollment Process

Prior to May 15 of each year, a student who is interested in participating in the EOP shall notify the district of the intent to enroll in eligible post-secondary courses during the following school year. A high school transfer student or a student returning to high school after dropping out of school has 20 business days from the date of enrollment to indicate interest.

The district shall review with the student and the student's parent or guardian the student's current status toward meeting all state and district graduation requirements and the applicability of the proposed eligible post-secondary course to the remaining graduation requirements.

A student who intends to participate in the EOP shall develop an educational learning plan in cooperation with an advisory support team. An advisory support team may include the student, the student's parent or guardian and a teacher or a counselor. The educational learning plan may include:

1. The student's short-term and long-term learning goals and proposed activities; and
2. The relationship of the eligible post-secondary courses proposed under the EOP and the student's learning goals.

A student who enrolls in the EOP may not enroll in eligible post-secondary courses for more than the equivalent of two academic years. A student who first enrolls in the EOP in grade 12 may not enroll in eligible post-secondary courses for more than the equivalent of one academic year. If a student first enrolls in an eligible post-secondary course in the middle of the school year, the time of participation shall be reduced proportionately. If a student is enrolled in a year-round program and begins each grade in the summer session, summer sessions are not counted against the time of participation.

Duplicate Courses

The district will establish a process to determine duplicate course designations. The district will notify an eligible student and the student's parent or guardian, of any course the student wishes to take that the district determines is a duplicate course, within 20 business days after the student has submitted a list of intended courses.

A student may appeal a duplicate course determination to the Board based on evidence of the scope of the course. The Board or designee will issue a decision on the appeal within 30 business days of receipt of the appeal. If the appeal is denied by the Board or designee, the student may appeal the district's determination to the Superintendent of Public Instruction or designee under ORS 340.030.

Annual Credit Hour Cap

The number of quarter credit hours that may be awarded by a high school under the EOP is limited to an amount equal to the number of students in grades 9 through 12 enrolled in the high school multiplied by a factor of 0.33. For example, the cap for a high school with 450 students in grades 9 through 12 would be 148.5 ($450 \times 0.33 = 148.5$). (The caps must be established separately for each high school.)

At the district's discretion, the district may choose to exceed both the individual high school level cap and the aggregate district level cap. If the district has more eligible students than are allowed under the credit hour cap the district shall establish a process for selecting eligible students for participation in the program. The process will give priority for participation to students who are "at risk." An "at-risk student" means: (1) a student who qualifies for a free or reduced lunch program; or (2) an at-risk student as defined by rules adopted by the State Board of Education if it has adopted rules to define an at-risk student.

If the district has not exceeded the credit hour cap, the district shall ensure that all eligible at-risk students are allowed to participate in the EOP and may allow eligible students who are not at-risk to participate in the program.

Post-Secondary Institution Credit

Prior to beginning an eligible post-secondary course, the district shall notify the student of the number and type of credits that the student will be granted upon successful completion of the course. If there is a dispute between the district and the student regarding the number or type of credits that the district will or has granted to a student for a particular course, the student may appeal the district's decision to the Board^{1}.

Credits granted to a student shall be counted toward high school graduation requirements and subject area requirements of the state and the district. Evidence of successful completion of each course and credits granted shall be included in the student's education record. A student shall provide the district with a copy of the student's grade in each course taken for credit under the EOP. The student's education record shall indicate that the credits were earned at an eligible post-secondary institution.

Financial Agreement

The district shall negotiate in good faith a financial agreement with the eligible post-secondary institution for the payment of actual instructional costs associated with the student's enrollment, including tuition and fees, textbooks, equipment and materials.

Waiver

A district may request an EOP waiver from the Superintendent of Public Instruction² if compliance with the EOP would adversely impact the finances of the district **or** if all conditions identified in ORS 340.083(1)(b) exist.

Student Reimbursement

Students are not eligible for any state student financial aid for college coursework, but students may apply to the district for reimbursement for any textbooks, fees, equipment or materials purchased by the student

¹ {ORS 340.040(3) allows a student to appeal through an "appeals process adopted by the school district board."}

² Oregon Department of Education

that are required for an eligible post-secondary course. All textbooks, fees, equipment and materials provided to a student and paid for by the district are the property of the district.

Transportation Services

The district may provide transportation services to eligible students who attend eligible post-secondary institutions within the education service district boundaries of which the district is a component district.

Special Education Services

The district of an eligible student participating in the EOP shall be responsible for providing any required special education and related services to the student. If a post-secondary institution intends to provide special education and related services to an EOP participant, the institution shall enter into a written contract with the district of the student.

The contract shall include the following at a minimum:

1. Allowance for the student to remain in the program during the pendency of any special education due process hearing unless the parent or guardian and district agree otherwise;
2. Immediate notification to the district if the institution suspects that a student participating in the program may have a disability and requires special education or related services;
3. Immediate notification to the district if the student engaged in conduct that may lead to suspension or expulsion; and
4. Immediate notification to the district of any complaint made by the parent or guardian of the student regarding the student's participation in the program at the institution.

District Alternative Programs

The EOP does not affect any program, agreement or plan that existed on January 1, 2006, between the district and a post-secondary institution, which has been continued or renewed.

Any new program, agreement or plan that is developed after January 1, 2006, and is intended to provide access for public high school students to a post-secondary course, may be initiated at the discretion of the district and the post-secondary institution.
