

# Growing Our Future

## OUTDOOR CLASSROOM AND BIODIVERSITY PROJECT AT GHS

### PROJECT OVERVIEW

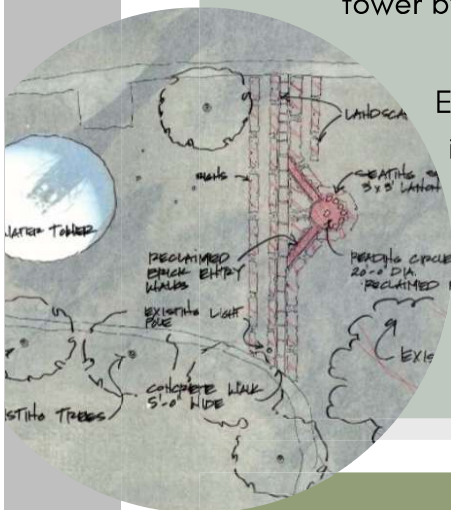

- Create an outdoor classroom w/walking proximity to school
- Utilize available greenspace- see progress photo to the right!
- Increase native flora and fauna with plantings in and around the classroom
- Fund entirely through donations and fundraisers

### LOCATION AND POTENTIAL EXPANSION

Location: just east of the water tower by athletic fields

Room to grow!  
Expansion could include trees, a rain garden, wildflower meadow, community garden plots

### EDUCATIONAL GOALS

- "Open Air" classroom to be used by many disciplines (Science, Art, Child Development, P.E., etc)
- Make student research and stewardship easily accessible
- Signage to explain the importance of biodiversity- especially native species
- Achieve "Certified Schoolyard Habitat" status
- Foster connections with nature
- Encourage unique, valuable, and shared classroom experiences

### CALL TO ACTION

Here's where you come in! We are looking for donations of all sizes. Please use this link to find out more about donating.

Thank you for considering!
