Facts of this Matter:

The ZCHS Athletic Department is requesting Board approval for the purchase of a pole vault cart to allow for the more efficient transportation and storage of our pole vault poles. The cart will make it easier to move the poles and provide a safer, more protected storage solution than we have been able to provide in the past.

Objective POSITIVES related to this item or approach:

Our growing pole vault program needs a more efficient way to transport and store its equipment. A dedicated pole vault cart will also help protect the poles from damage, which will extend their lifespan and help us maximize our investment in the equipment.

Objective NEGATIVES related to this item or approach:

The primary challenge associated with this purchase is the cost. However, the athletic department has planned and budgeted for this expense over time, setting aside funds to ensure the purchase can be made responsibly while meeting the growing needs of our track and field program.

Opinion/Recommendation:

It is the recommendation of the ZCHS Athletic Department to purchase the pole vault cart at a cost of \$1519.00 which includes shipping.

Financial Implications, if any:

None
