Lewiston-Altura School District

Custodial / Maintenance Report

September 2026

Personnel Information

We are currently fully staffed

Training

Staff completed OSHA required safety training on Bloodborne Pathogen Exposure Prevention.

Inspections

- Pye-Barker completed the annual sprinkler system inspection at the elementary school.
- FM Global completed boiler inspections at both schools and both passed inspection.

Progress on Projects

- Painted several classrooms at the high school.
- We were able to get the classroom floors waxed in the rooms that didn't receive new flooring at the high school.
- Touched up paint in rooms that were damaged by construction that their painter would not do.
- Moved items stored in the elementary cafeteria so the floor could be installed.
- Coordinated with Winona Controls to get their network back online as connections were damaged during construction.
- Boilers are up and running at both schools.
- Worked with MMC to clean out some drains in the school that stopped working during construction.

Comments

We are working to get the schools ready for the first day of classes which has been a challenge with the ongoing construction.

Respectfully Submitted,
Dan Buege
Facility Manager
