

Principal's Board Report

Charles R. Leask, Sr. Middle School

September 2026

The first couple of weeks of the school year are off to a great start at Charles R. Leask, Sr. Middle School. It has been wonderful to see our students return to school with positive attitudes and a willingness to learn. Students have been engaged in their classrooms, respectful toward staff and their peers, and are doing a great job adjusting to the routines and expectations of the new school year.

Cross Country

Our cross-country season is officially underway, and our student-athletes have been working hard during practices. We are excited to see their continued growth, teamwork, and commitment throughout the season. We are looking forward to a great cross-country season and appreciate the staff members who are supporting our students and providing them with opportunities to participate in athletics.

Student Services

I would also like to recognize and thank our Student Services Department for their continued dedication to our students. Their work helps ensure that all of our students have access to a quality education and the supports they need to be successful. We greatly appreciate their collaboration and commitment to meeting the individual needs of our students.

Grandparents Luncheon

We are looking forward to welcoming grandparents and special family members to our Grandparents Luncheon on Friday, September 18. This is a wonderful opportunity for our students to celebrate the important role grandparents and family members play in their lives.

We encourage members of the community who plan to attend to RSVP with the Middle School Office so that we can make appropriate preparations for the event. We look forward to a great turnout and a special afternoon for our students and their families.

MAP Testing

MAP testing is coming up, and our staff and students are preparing for the upcoming assessment window. We are excited to see the academic growth our students have made and look forward to seeing positive results. The information from MAP testing will help our teachers identify student strengths, areas for growth, and instructional priorities as we continue working to provide high-quality learning experiences for every student.

Overall, I am very pleased with the start of the school year. The positive energy in our building has been encouraging, and I am proud of the way our students and staff have come together to begin the year. We look forward to building on this strong start as we continue working together to support student success.
