**SUGGESTED SCHOOL BOARD ACTION:**

Review

**DESCRIPTION:**

BHM Schools conducted a Family Satisfaction Survey from April 29-May 13, 2026. The survey was sent by email and text to more than 5,000 parents, and 1,112 responses were received, a 19.8% response rate.

Respondents were asked to rate both the overall district and individual schools in multiple areas, including academics, overall experience, communication, sense of belonging, and more. Our objective is to administer this survey annually to identify what we are doing well, where we can improve, and to maintain responsive communication with our families.

Families had the opportunity to respond to a variety of questions that mixed multiple choice options with written responses to provide specific reasons for their answers.

Administrators have received reports specific to their school, and an overview of district and school results will be provided at the workshop.
