DESCRIPTION:

First day enrollment numbers have been gathered and compared with projections for 2026-27. Elementary levels are currently below projections while BCMS and BHS are above projections. We will wait and see how this turns out on October 1st.

Note: Shared-time students at BHS (PSEO, online, homeschool, etc.) are counted as 1.0 in the 1st Day numbers and will be re-calculated to their actual FTE (a decrease) for the October 1st official enrollment count.
