Minute of Silence Notice

This notice is provided to inform you that the school will observe a minute of silence at or near the beginning of each school day.

During this minute, your student may sit quietly or engage in any silent activity permitted by school rules and District policy as long as it doesn't distract or interfere with other students. Disruption of the minute of silence may result in disciplinary action.

The District encourages you to offer direction to your child on silent reflection or activity to engage in during the minute of silence.

The minute of silence and provision of this notice are required by Idaho Code.
