

White Settlement Independent School District

Brewer High School

2026-2027 Campus Improvement Plan

Mission Statement

In our house, we foster relationships and prepare all students to be successful members of society.

Vision

Empowering all students to be life-long learners.

Value Statement

We Believe

Students are our top priority.

Every student has value and purpose.

Our students deserve a passionate teacher in every classroom everyday.

A safe, secure and enriched environment enhances learning.

Learning is a shared responsibility that requires active involvement by students, staff, families and the community.

Continuous professional growth is essential for student success.

Comprehensive Needs Assessment

Demographics

Summary

School Community Overview

- Total enrollment: **2,081 students**
- Grade distribution is balanced across 9–12, with each grade level representing roughly 23–26% of enrollment
- Gender split is nearly even: **49.88% female, 50.12% male**

Student Groups by Race/Ethnicity, Gender, Attendance & Mobility

- Ethnicity/Race breakdown:
 - **48.92% Hispanic**
 - **30.80% White**
 - **12.45% African American**
 - **5.53% Two or More Races**
 - Smaller groups: Asian (1.44%), American Indian (0.67%), Pacific Islander (0.19%) *Hispanic-Latino 1,018 (48.92%); White 641 (30.80%); Black 259 (12.45%)*

Mobility indicators:

- **10.72% Transfer In students**
- **0.38% Unaccompanied Youth**
- **0.72% Homeless (various categories)** *Transfer In Students 223 (10.72%)*

Attendance risk factors:

- **61.17% At Risk**
- **11.73% Intervention Indicator** *At-Risk 1,273 (61.17%)*

Graduation, Completion & Dropouts

- Brewer High School closely monitors graduation progress, including credits earned, course completion, End-of-Course assessment performance, and individual graduation plans. Counselors and administrators identify students who are off-track for graduation and provide targeted interventions, credit recovery, academic advising, and family communication. Dropout prevention efforts focus on early identification of students at risk of disengagement and connecting those students with appropriate campus resources.

Discipline

- Campus discipline data are reviewed regularly to identify trends, recurring behaviors, locations, times, and student groups that may require additional intervention. Brewer High School has established clear expectations for student behavior and is emphasizing consistency, accountability, and instructional time. Particular attention is being given to reducing classroom disruptions and cell phone-related violations. The campus is implementing progressive consequences while also emphasizing proactive classroom management, student relationships, and restorative/problem-solving strategies when appropriate.

5. CCMR & Advanced Course Enrollment

- Brewer High School continues to expand opportunities for students to graduate college, career, and military ready (CCMR). Students have access to Career and Technical Education pathways, dual credit, Advanced Placement and other advanced coursework, industry-based certifications, work-based learning, and postsecondary planning. Campus leadership monitors participation and success in advanced courses and CCMR programs to ensure that opportunities are accessible to students across all demographic groups. Students receiving **special education services** are supported through individualized plans, accommodations, inclusion opportunities, specialized instruction, and collaboration among special education and general education staff. English Learners and other students receiving specialized services are provided targeted supports based on individual needs. The campus works to ensure that students receiving services have access to the same rigorous curriculum and postsecondary opportunities as their peers.

6. Special Education & Other Special Programs

- SPED enrollment: **251 students (12.06%)**. *Special Education (SPED) 251 (12.06%)*

Largest disability categories:

- **Learning Disability: 44.62%**
- **Other Health Impairment: 16.33%**
- **Intellectual Disability: 15.94%** *Learning disability 112 (44.62%)*

Instructional settings:

- **61.35% Mainstream**
- **17.53% SelfContained**
- **13.55% Resource Room** *Mainstream 154 (61.35%); Self Contained 44 (17.53%)*

Other programs:

1. **Dyslexia: 11.39%**
2. **Section 504: 15.43%**
3. **Emergent Bilingual: 13.12%**
4. **Gifted & Talented: 5.86%** *Dyslexia 237 (11.39%); EB 273 (13.12%)*

Teacher Retention, Recruitment, Experience & Ratios

Staff composition:

- **143 teachers (76.06%)**
- **32 administrative support (17.02%)**
- **13 educational aides (6.91%)**

Paraprofessional Qualifications

- Educational aides: **13 total (6.91%)**. *Educational Aide 13 (6.91%)*
- The PDF does **not** list specific qualifications; note for SPED/HR documentation

Attendance (ADA) - 95.04% (8/14 - 8/28)

Strengths

Large, Stable Enrollment

- With **2,081 students**, Brewer maintains a strong and stable highschool population.

Diverse Student Population

- Brewer's diversity is a major strength, with nearly half of students identifying as **Hispanic (48.92%)**, followed by **White (30.80%)** and **African American (12.45%)**.
- Diversity supports rich cultural experiences, inclusive programming, and broad student perspectives.

Balanced Gender Representation

- Gender distribution is nearly equal — **49.88% female**, **50.12% male** — allowing for balanced participation in academic, athletic, and extracurricular programs.

Strong Support Systems for HighNeed Populations

- Brewer serves a highneed population with intentionality:
 - **57.52% Economic Disadvantage**
 - **61.17% AtRisk**
 - **13.12% Emergent Bilingual**
 - **12.06% Special Education**
- The presence of robust EB, SPED, Dyslexia, and 504 programs demonstrates strong campus capacity to support diverse learners.

Comprehensive Special Education Services

- SPED programming is broad and wellstructured.
- Majority of students served in **Mainstream (61.35%)**, supporting inclusion.
- Strong specialized support through **Resource (13.55%)** and **SelfContained (17.53%)** settings.
- Disability categories are wellrepresented, showing a campus equipped to meet varied student needs

Strong Identification & Support for Section 504 and Dyslexia

- **321 students (15.43%)** served through Section 504
- **237 students (11.39%)** identified for Dyslexia services.
- These numbers reflect strong screening, identification, and intervention systems

Strong Paraprofessional & Support Staff Presence

- **13 educational aides** and **32 administrative support staff** contribute to strong operational and instructional support.

Low Mobility & Stability Indicators

- Only **10.72%** of students are transferins, and **0.38%** are unaccompanied youth.
- Low mobility supports consistent instruction, stronger relationships, and improved academic outcomes.

Full Title I Schoolwide Program

- With **100% of students** served under Title I Schoolwide, Brewer benefits from flexible funding to support campus wide instructional initiatives.

Problem Statements Identifying Demographics Needs

Problem Statement	Root Cause
1★ Attendance & Engagement: Brewer High School has a significant number of students at risk of academic disengagement, with 61.17% identified as At-Risk and ADA at 95.04%. Attendance concerns, student mobility, and intervention needs may limit students' access to instruction and negatively impact achievement, graduation, and CCMR outcomes.	Inconsistent systems for early identification and intervention related to attendance, academic progress, and student engagement, particularly for At-Risk and mobile students.
2★ Instruction & Classroom Management: Brewer High School serves a diverse population with significant SPED, Emergent Bilingual, Dyslexia, and 504 populations. Inconsistent classroom management, instructional delivery, accommodations, and student engagement, combined with classroom disruptions and cell phone violations, can reduce instructional time and student access to rigorous instruction.	Inconsistent implementation of campus-wide instructional and behavioral expectations, including classroom routines, differentiation, accommodations, and engagement strategies.

★ = Priority

Lowest Racial/Ethnic Group 2	Met Interim Target	3	Minimal Growth	1	Met Interim Target	3	Met Interim Target	3
High Focus Group	Met Interim Target	3	Minimal Growth	1	Met Interim Target	3	Met Interim Target	3
Total Points	14 out of 32 (44%)				12 out of 16 (75%)		13 out of 16 (81%)	

Strengths

Brewer High School continues to build a solid foundation for sustained academic growth, supported by steady gains in student performance and strengthened instructional practices.

In 2025–26, campuswide STAAR results reflect meaningful progress:

- **76%** of students achieved *Approaches Grade Level or above*
- **49%** achieved *Meets Grade Level or above*
- **15%** achieved *Masters Grade Level*

Science and Social Studies stand out as areas of exceptional strength. In Science, **90%** of students scored Approaches or Above, **61%** reached Meets or Above, and **28%** achieved Masters. Social Studies shows similar momentum, with **88%** at Approaches or Above, **59%** at Meets or Above, and **27%** at Masters. These results highlight strong content mastery and effective instructional alignment in tested courses.

Overall STAAR performance has remained stable or improved over the past five years. Approaches increased from

70% to 76%, and Masters rose from **13% to 15%**, demonstrating upward movement in higherlevel performance. Several student groups — including **Asian**, **White**, **American Indian**, and **Two or More Races** — consistently perform well across all achievement levels. These strengths position Brewer High School to identify and replicate successful instructional strategies that promote deeper learning and mastery across all content areas and student groups.

Additionally, Brewer's overall campus rating improved from a **C (76)** to a **B (82)**, reflecting the collective efforts of staff, students, and leadership to elevate academic outcomes and strengthen campus systems.

Problem Statements Identifying Student Learning Needs

Problem Statement	Root Cause
1★ Reading/Language Arts: Only 48% of students achieved Meets or Above and 8% achieved Masters, despite 67% achieving Approaches or Above.	Inconsistent implementation of rigorous reading, writing, text analysis, and evidence-based response practices across classrooms and content areas.
2★ Mathematics: Only 27% of students achieved Meets or Above and 7% achieved Masters, despite 70% achieving Approaches or Above.	Gaps in prerequisite skills combined with inconsistent opportunities for rigorous mathematical reasoning, problem solving, and application.
3★ Student Achievement Gaps: Overall achievement is 76% Approaches, 49% Meets, and 15% Masters, with lower performance among some student groups.	Inconsistent use of disaggregated data to provide targeted intervention, acceleration, differentiation, and enrichment for students at different performance levels.
4★ Brewer High School is working to increase college, career, and military readiness for the Class of 2026, but current data shows that too few seniors are meeting TSI requirements. We need to ensure that 100% of our students are graduation with their CCMR point.	The primary root causes include inconsistent access to targeted TSI preparation. Additionally, students may lack structured support during the school day to build the academic skills required for TSI success, contributing to lower pass rates in Reading and Math.

★ = Priority

School Processes & Programs

Summary

Brewer High School – Programs and Processes

Brewer High School has established programs and processes designed to support student achievement, college and career readiness, student engagement, and a safe and supportive learning environment. Campus systems are aligned with district expectations while allowing campus leadership and staff to respond to the specific needs of Brewer students.

Curriculum and Instruction

Brewer High School follows the district-adopted curriculum and Texas Essential Knowledge and Skills (TEKS) to provide a consistent, standards-based instructional program. Teachers use curriculum resources, assessment data, common assessments, STAAR/EOC results, and classroom evidence to plan instruction and identify student needs. Professional Learning Communities (PLCs) and collaborative planning provide opportunities for teachers to analyze student work, develop common expectations, and identify instructional strategies.

A continued campus focus is increasing the rigor and consistency of instruction, particularly in Reading/Language Arts and Mathematics, where 2025–26 STAAR data indicate the greatest opportunities for growth. Campus strengths in Science and Social Studies provide opportunities to identify and replicate effective instructional practices across content areas.

Professional Development

Professional development is driven by student achievement data, classroom observation data, campus priorities, and identified staff needs. Professional learning emphasizes effective instructional delivery, classroom management, differentiation, student engagement, assessment practices, special education accommodations, Emergent Bilingual supports, and content-specific instructional strategies.

Campus administration provides ongoing feedback through walkthroughs, observations, PLCs, coaching conversations, and professional learning. New teachers and teachers needing additional support receive targeted assistance and opportunities to work collaboratively with experienced staff.

Leadership and Decision-Making Processes

Campus leadership uses a collaborative, data-driven decision-making process. Administrators, instructional leaders, counselors, teachers, and support staff analyze academic, attendance, discipline, and student program data to identify needs and determine appropriate interventions.

Campus decisions are aligned with the campus improvement plan, district goals, student needs, and available resources. Leadership communicates expectations clearly and monitors implementation through walkthroughs, meetings, data reviews, and follow-up.

Communication

Brewer High School uses multiple communication methods to maintain communication among administrators, teachers, students, families, and the community. These include email, phone calls, conferences, campus newsletters and announcements, student information systems, social media, campus meetings, and parent events.

A continued priority is ensuring that communication is timely, consistent, and proactive, particularly regarding attendance, academic progress, discipline, graduation requirements, CCMR opportunities, and student support services.

Organization, Scheduling, and Support Services

The campus serves approximately 2,100 students in grades 9–12 and utilizes a master schedule designed to provide

access to required coursework, electives, advanced academics, CTE pathways, intervention, and specialized services.

Students have access to counselors, administrators, special education personnel, instructional support staff, and other student services. Special education students are supported through individualized education programs, accommodations, inclusion opportunities, specialized instruction, and collaboration between general and special education teachers.

The campus also provides support for Emergent Bilingual students, students with dyslexia, Section 504 students, gifted and talented students, and students identified as At-Risk. Counselors and administrators monitor graduation progress and provide interventions for students who are not on track for graduation.

Extracurricular and Cocurricular Opportunities

Brewer High School provides students with opportunities to participate in athletics, fine arts, clubs, organizations, academic activities, leadership opportunities, career and technical student organizations, and other extracurricular and cocurricular programs. These opportunities support student engagement, school connectedness, leadership development, and development of skills beyond the traditional classroom.

The campus should continue to encourage participation among students who may be less likely to engage in extracurricular activities, particularly students identified as At-Risk or those experiencing attendance and academic challenges.

Technology Integration

Technology is utilized to support instruction, communication, assessment, research, collaboration, and access to educational resources. Students and teachers have access to digital instructional platforms and district-supported technology.

Brewer's technology focus should emphasize intentional instructional use rather than technology for technology's sake. Teachers should use technology when it enhances learning, provides meaningful access to resources, supports differentiation, or increases student engagement. At the same time, the campus continues to address technology-related distractions and appropriate student device use in order to protect instructional time.

Other Programs and Processes

Brewer High School maintains systems for:

- CCMR preparation, including CTE pathways, certifications, dual credit, advanced coursework, and postsecondary planning.
- Credit recovery and graduation monitoring for students who are off-track.
- Attendance intervention for students experiencing chronic absenteeism or other barriers to regular attendance.
- Positive behavior and progressive discipline systems to maintain a safe and orderly learning environment.
- Special education and student support services based on individual student needs.
- Data-driven intervention using STAAR/EOC, common assessment, attendance, discipline, and course-performance data.
- Family and community engagement to strengthen partnerships supporting student success.

Overall Assessment

Brewer High School has a strong foundation of programs and processes to support its diverse student population. The primary opportunity is to increase consistency in implementation across classrooms and departments. Moving forward, campus systems should prioritize rigorous Tier I instruction, data-driven intervention, attendance and student engagement, effective classroom management, and increased access to CCMR and advanced learning opportunities. Continued monitoring of implementation will help ensure that established programs translate into improved student outcomes, particularly in the campus priority areas of Reading/Language Arts and Mathematics.

Strengths

Brewer High School has a comprehensive system of programs and processes that provides students with access to rigorous instruction, targeted interventions, student support services, extracurricular opportunities, and CCMR pathways. The campus has a strong collaborative and data-driven foundation that can be leveraged to increase consistency of implementation and improve student outcomes.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement	Root Cause
1★ Inconsistent implementation of rigorous Tier I instruction, data-driven interventions, and classroom management practices across classrooms limits student achievement, particularly in Reading/ Language Arts and Mathematics.	Inconsistent implementation and monitoring of campus instructional expectations and practices across departments and classrooms.
2★ Brewer High School faces inconsistencies in teacher credential alignment, resulting in gaps between staff qualifications and assigned subject areas. Without a structured system for strategic hiring, credential monitoring, targeted professional development, and retention of qualified staff, the campus risks uneven instructional quality and challenges in meeting state certification requirements.	Brewer High School has lacked a systematic, campus wide process for verifying teacher credentials, supporting certification pathways, and monitoring alignment between staff qualifications and assigned courses. This gap has led to inconsistent hiring practices, limited ongoing support for teachers pursuing certification, and insufficient retention structures for fully qualified staff.
3★ Brewer High School is experiencing inconsistent campuswide alignment around expectations, accountability, and inclusive culture, leading to variations in how staff support students, collaborate with one another, and uphold shared norms. Without a unified approach to inclusive practices and high-expectation culture, the campus struggles to ensure that every individual feels valued and supported.	The root cause is the absence of a clear, consistently implemented framework for building and maintaining an inclusive, high-expectations culture. This includes gaps in shared accountability structures, inconsistent modeling of campus norms, and limited opportunities for staff to engage in culture-building professional learning. As a result, expectations and support systems vary across classrooms
4★ Brewer High School has experienced inconsistent alignment between campus spending and instructional priorities, resulting in budget decisions that do not fully support academic goals, department needs, or district initiatives. Without a coordinated process for collaborative budgeting, the campus struggles to ensure that financial resources are strategically allocated to maximize student outcomes a	The absence of a structured, campuswide budgeting framework that brings together department heads, instructional coaches, directors, and administrators to analyze needs, prioritize spending, and monitor resource use. Limited opportunities for cross-department planning and inconsistent communication around budget expectations have led to fragmented decision-making and misalignment

5

Brewer High School is experiencing inconsistent student ID compliance, resulting in gaps in campus safety, difficulty verifying authorized individuals, and uneven enforcement of expectations throughout the school day. Without a unified system for ID monitoring and hallway visibility, staff and administrators struggle to maintain predictable, campuswide accountability.

The root cause is the absence of a structured, multi-tiered process for reinforcing ID expectations, including inconsistent monitoring at building entrances, limited staff visibility during transitions, and varying levels of follow-through when students are out of compliance. These gaps in operational consistency and student accountability systems have led to unpredictable enforcement and reduced

 = Priority

Perceptions

Summary

Brewer High School is perceived as a caring, supportive school community with dedicated staff, strong school pride, and a wide range of academic, extracurricular, and student support opportunities. Stakeholders recognize the campus's commitment to providing students with opportunities to succeed and prepare for college, career, and life after high school.

At the same time, students, parents, and staff identify a need for greater consistency in instructional rigor, classroom expectations, communication, and student engagement. Stakeholders also recognize the need to strengthen support for underperforming student groups through targeted interventions and consistent progress monitoring.

To deepen stakeholder voice and ensure decisions reflect the needs of the entire school community, Brewer can expand opportunities for feedback through **regular climate and satisfaction surveys**, **student advisory panels**, **parent listening sessions**, and **staff input forms**. Collecting feedback at multiple points throughout the year — and sharing results transparently — will help the campus identify trends, celebrate strengths, and address concerns proactively.

Overall, stakeholder perceptions indicate that Brewer has strong programs and a positive foundation, but greater consistency and accountability in implementation are needed to ensure equitable academic growth and postsecondary readiness for all students.

Strengths

Brewer High School is perceived by stakeholders as a **strong, caring, and supportive school community** with dedicated staff and a strong sense of school pride. Students, parents, staff, and community members recognize the campus's commitment to providing students with opportunities to succeed academically and personally.

Key strengths include:

- **Caring and dedicated staff** who are committed to supporting student success.
- **Strong school pride and sense of community** that contributes to student belonging and engagement.
- **Broad academic and extracurricular opportunities** that allow students to pursue individual interests and strengths.
- **Comprehensive student support systems** that address academic, social, and individual student needs.
- **Strong foundation for college, career, and postsecondary readiness** through advanced academics, CTE, and other opportunities.
- **Stakeholder commitment to student success**, with students, families, staff, and community members invested in the continued improvement of the campus.

Brewer High School has a strong culture of care, pride, and commitment to students, providing a solid foundation of academic opportunities, support services, and extracurricular experiences that can be leveraged to improve outcomes for all students.

Problem Statements Identifying Perceptions Needs

Problem Statement	Root Cause
1 ★ Stakeholders perceive a need for more consistent and proactive communication and greater student engagement to ensure students and families feel informed, connected, and supported.	Communication and engagement practices vary across departments and student groups, resulting in inconsistent access to information, support, and opportunities.
2 Stakeholders perceive inconsistencies in instructional rigor and classroom expectations, resulting in varying student experiences and concerns about whether all students are being sufficiently challenged and supported.	Inconsistent implementation of instructional expectations and classroom practices across teachers and departments.

★ = Priority

Strategy 3

Brewer High School will leverage the redesigned daily advisory period to provide targeted academic interventions and enrichment that meet the varied needs of our student body. Teachers will use this period to deliver high-quality instructional strategies, including small-group support, and skill-based interventions. By embedding intentional academic support and enrichment into the school day, the campus will ensure students receive consistent, differentiated instruction that strengthens mastery across all disciplines and maximizes overall student achievement.

Strategy's Expected Result/Impact: Students will demonstrate increased mastery across all disciplines as evidenced by higher performance on campus, district, and state assessments. By the end of the year, more students will meet or exceed grade-level expectations due to targeted support and innovative instructional practices embedded in advisory.

Staff Responsible for Monitoring: Campus Administration, Teachers, Instructional Coaches

Strategy 2

The TCU College Go Center will serve as a dedicated space to support students in key areas of postsecondary achievement. Its focus will include college application guidance, planning meetings, and other resources to help students prepare for life after high school.

Strategy's Expected Result/Impact: Increase percentage of students planning and applying to college.

Staff Responsible for Monitoring: TCU Advisor/CCMR Coordinator/Counseling Staff

Problem Statements: Student Learning 4

Goal 2

Cultivate a safe, nurturing and collaborative environment that promotes active involvement by parents, students, and community members.

Performance Objective 1 High Priority

100% of our students will have an ID on at all times during the day.

Evaluation Data Source: Admin and staff will check IDs at the front door and cafeteria and provide temporary IDs as needed. Staff will remain visible in hallways to remind students to wear their IDs throughout the day.

Strategy 1

To promote campus safety and accountability, Brewer High School will implement a multi-tiered approach to ensure all students wear their school-issued ID throughout the day. Administrators will monitor building entrances to verify ID compliance upon arrival. Staff will maintain hallway visibility to remind and reinforce ID expectations.

Strategy's Expected Result/Impact: Improved campus safety through consistent ID verification at building entrances.

Increased student accountability as students reliably wear their school-issued IDs throughout the day.

Stronger staff presence and reinforcement resulting in fewer ID-related compliance issues.

Staff Responsible for Monitoring: All campus staff

Performance Objective 1 Problem Statements Identifying School Processes & Programs

	Problem Statement	Root Cause
5	Brewer High School is experiencing inconsistent student ID compliance, resulting in gaps in campus safety, difficulty verifying authorized individuals, and uneven enforcement of expectations throughout the school day. Without a unified system for ID monitoring and hallway visibility, staff and administrators struggle to maintain predictable, campuswide accountability.	The root cause is the absence of a structured, multi-tiered process for reinforcing ID expectations, including inconsistent monitoring at building entrances, limited staff visibility during transitions, and varying levels of follow-through when students are out of compliance. These gaps in operational consistency and student accountability systems have led to unpredictable enforcement and reduced

Performance Objective 2

Brewer High School will provide a weekly Sunday newsletter to parents to ensure transparency and keep all stakeholders informed about campus events, expectations, and celebrations.

Evaluation Data Source: Weekly communication data will be collected from Smore, ParentSquare, and all campus social media platforms to monitor engagement and ensure consistent outreach to families.

Strategy 1

Weekly Parent Newsletter

Strategy's Expected Result/Impact: Improved family engagement as parents receive consistent, predictable updates every Sunday.

Greater transparency for all stakeholders through regular communication about campus events, expectations, and celebrations.

Stronger trust and connection between families and the school due to clear, ongoing communication.

Staff Responsible for Monitoring: Administrative Staff

Performance Objective 2 Problem Statements Identifying Perceptions

Problem Statement	Root Cause
1 Stakeholders perceive a need for more consistent and proactive communication and greater student engagement to ensure students and families feel informed, connected, and supported.	Communication and engagement practices vary across departments and student groups, resulting in inconsistent access to information, support, and opportunities.

Performance Objective 3 High Priority HB3 Goal

Brewer High School comply with the Texas State law restricting the use of personal communication devices during the instructional day.

Evaluation Data Source: Student Conductor, Skyward, Cell phone pickup email, student conductor will track cell phone violations, and a new policy will be implemented for personal communications device violations that will be tracked. All students will be assigned a Yonder pouch.

Strategy 1

Brewer High School will utilize the campus discipline matrix to address the use of personal communication devices, ensuring consistent expectations and consequences across all classrooms.

Strategy's Expected Result/Impact: Consistent enforcement of device expectations across all classrooms and common areas.

Reduction in device-related disruptions due to clear consequences and predictable procedures.

Improved instructional focus as students adhere to established guidelines for personal device use.

Staff Responsible for Monitoring: All campus staff

Strategy 3

Brewer High School will implement weekly tardy incentives to reinforce punctuality and strengthen consistent classroom attendance. Each week, students who demonstrate that they can arrive to class on time -- with three or fewer tardies -- will be entered into a drawing for

campus-provided gift cards. This incentive system is designed to celebrate positive habits, encourage responsibility, and create a culture where being on time is recognized and rewarded.

Strategy's Expected Result/Impact: Improved on-time arrival to class -- students demonstrate increased responsibility and consistency in meeting campus expectations.

Reduction in overall tardies -- weekly monitoring and incentives lead to fewer disruptions at the start of each period.

Stronger campus culture around punctuality -- students see that being on time is valued, recognized, and rewarded.

Increased instructional time -- fewer late arrivals means teachers can begin lessons promptly and maintain momentum.

Positive reinforcement of desired behaviors -- students respond to recognition and rewards, creating a cycle of improved habits.

Enhanced student engagement -- timely arrival supports better participation, smoother transitions, and stronger classroom routines.

Staff Responsible for Monitoring: Admin/Teachers

Performance Objective 6 Problem Statements Identifying Demographics

	Problem Statement	Root Cause
1	Attendance & Engagement: Brewer High School has a significant number of students at risk of academic disengagement, with 61.17% identified as At-Risk and ADA at 95.04%. Attendance concerns, student mobility, and intervention needs may limit students' access to instruction and negatively impact achievement, graduation, and CCMR outcomes.	Inconsistent systems for early identification and intervention related to attendance, academic progress, and student engagement, particularly for At-Risk and mobile students.

2

Instruction & Classroom Management: Brewer High School serves a diverse population with significant SPED, Emergent Bilingual, Dyslexia, and 504 populations. Inconsistent classroom management, instructional delivery, accommodations, and student engagement, combined with classroom disruptions and cell phone violations, can reduce instructional time and student access to rigorous instruction.

Inconsistent implementation of campus-wide instructional and behavioral expectations, including classroom routines, differentiation, accommodations, and engagement strategies.

Performance Objective 6 Problem Statements Identifying School Processes & Programs

Problem Statement

Root Cause

1

Inconsistent implementation of rigorous Tier I instruction, data-driven interventions, and classroom management practices across classrooms limits student achievement, particularly in Reading/Language Arts and Mathematics.

Inconsistent implementation and monitoring of campus instructional expectations and practices across departments and classrooms.

3

Brewer High School is experiencing inconsistent campuswide alignment around expectations, accountability, and inclusive culture, leading to variations in how staff support students, collaborate with one another, and uphold shared norms. Without a unified approach to inclusive practices and high-expectation culture, the campus struggles to ensure that every individual feels valued and supported.

The root cause is the absence of a clear, consistently implemented framework for building and maintaining an inclusive, high-expectations culture. This includes gaps in shared accountability structures, inconsistent modeling of campus norms, and limited opportunities for staff to engage in culture-building professional learning. As a result, expectations and support systems vary across classrooms

Goal 3

Sustain an effective and efficient organization by utilizing a flexible, responsive and consistent process for operational management.

Performance Objective 1

Exercise fiscal responsibility to maintain financial strength and provide the financial resources for BHS educational program and support needs that are 100% tied to the campus plan.

Evaluation Data Source: Completed Budget
All purchases aligned to campus goals
Budget Transparency

Strategy 1 ☒ Targeted Support Strategy ☒ Additional Targeted Support Strategy
☒ Results Driven Accountability

Work with department heads, instructional coaches, directors, and administrators to customize a budget aligns with campus and district goals.

Strategy's Expected Result/Impact: Balance a budget that is focused on district and campus priorities.

Problem Statement

Root Cause

4

Brewer High School has experienced inconsistent alignment between campus spending and instructional priorities, resulting in budget decisions that do not fully support academic goals, department needs, or district initiatives. Without a coordinated process for collaborative budgeting, the campus struggles to ensure that financial resources are strategically allocated to maximize student outcomes a

The absence of a structured, campuswide budgeting framework that brings together department heads, instructional coaches, directors, and administrators to analyze needs, prioritize spending, and monitor resource use. Limited opportunities for cross-department planning and inconsistent communication around budget expectations have led to fragmented decision-making and misalignment

Goal 4

Design professional learning opportunities that lead to effective teaching practices, instructional leadership, and improved student results.

Performance Objective 1

Professional Development -- including our Bite-Sized PD sessions -- is intentionally designed around identified needs that emerge from data analysis, PLC conversations, and insights gathered during learning walks. These targeted learning opportunities support continuous growth and address specific instructional priorities across the campus.

Evaluation Data Source: Walkthrough Data/Trends
PLC Artifacts
Student Performance Data

Strategy 1

Brewer High School will implement targeted professional development opportunities--such as Bite-Sized PD sessions--based on identified needs from data analysis, PLC discussions, and learning walk observations. This strategy ensures that professional learning is responsive, focused on instructional priorities, and supports continuous growth for all educators.

Strategy's Expected Result/Impact: Improved Instructional Quality
Increased Teacher Engagement
Stronger PLC Collaboration:
Growth in Student Achievement
Culture of Continuous Learning
