MR. GERBER'S CLASS

In my classroom, the students have been learning about bugs and their habitats. They have created a bug hotel and use their bug catchers to catch bugs and other materials to put in the bug hotel. It has been fun watching them so interested in nature!

S.E.L. WITH MISS CAITLIN

Our goal this year is to support students in feeling valued, included, and connected by building positive relationships and strong social skills. This year, we are focusing on communication, problem solving, emotional regulation, and building friendships. These are skills that students can use both in and out of school. We will also encourage strong attendance and academic success, helping students build the skills and confidence they need to thrive.

Parents, resources within the community will be sent home periodically. If you are looking for a specific support, please email me at cirvin@dps170.org, we are here to help!

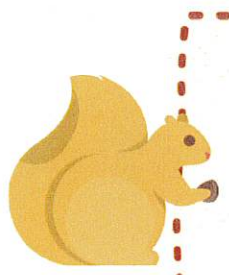

MRS. WITHROW'S CLASS

Our class is coming in **STRONG**. We have been assessing skills to determine academic placement. We have done a lot of social engagement while promoting social interactions. Looking forward to a great school year and the fun times ahead.

MUSIC CLASS

Washington, Jefferson, and Madison music teachers are providing Music class twice per week for our students. Please encourage your child to participate and show respect for these teachers who are working hard to provide music for our students. Thank you to Ms. Dunne, Ms. Meeks, and Ms. Hansen, our Music teachers.

REMINDERS

- If you are dropping your student off or picking them up, please do not block the turn around area for the buses. You will either need to get in line behind the buses or park in the lot.
- Please call and leave a message if your student is absent from school.
- Please review appropriate bus behavior with your student. This is for their safety and the safety of the students, driver, and monitor.
