The value of services rendered shall be based upon the hourly wages of a beginning employee of this or another New Mexico School District performing similar functions as determined by the District. From time to time, the Superintendent or designee may review facility use fees and recommend adjustments to the Board as necessary to reflect actual operating costs. Additionally, with prior notice to any organization using the District's facilities, the District reserves the right to adjust these costs on a case-by-case basis if the proposed use may have a disproportionate impact on the District's facilities.
